Age Range: 6 - 9 years

Grade Level: 1 - 4

Customer Reviews

A friend of mine gave me a copy of Ed Emberley's "Fingerprint Drawing Book" and some colored stamp pads for my birthday last year. I had so much fun with it, that I bought the "Complete Funprint Drawing Book" for my five year old niece. We both have lots of fun making "thumbies", and she's able to follow the steps very easily. I enjoy decorating blank cards and envelopes, and have created scenes using combinations of various fingerprint figures. For example, on one card, I created a winter scene using the skier, ice skater and snowman, and another using the football player and cheerleader figures. I also use a variation of the queen "thumbie" on the membership cards I've created for my local chapter of Sweet Potato Queens, known as The Couch Potato Queens. Fingerprint art is fun for everyone, and the books are great!

I borrowed this book from our local library to use for my daughter's kindergarten project. The drawings are very easy to follow. I was first introduced to Ed Emberley's books when I received his animal drawing book as a young child. I spent hours drawing animals. It helped me to become

creative. This book combines 2 of Ed's books - thumbprint and fingerprint drawings. It is nice to have the choice because with the different sizes in fingertips, you can create different sized animals and depth within pictures. I especially love the section on fingerprint drawings. The detail and color suggestions are wonderful. I highly recommend this book!

I'm not crafty and this was so easy for me, my 7 year old son, and even my 2 year old daughter. A terrific activity for our cancelled school snow day. Simple instructions to follow and a great sense of self esteem for the children as they accomplish their creations. No frustration for mom trying to explain it either. I'm telling all my girlfriends about this book.

What a fun book. My 5 year old son loved it and has already improved his drawing quite a bit. Thumbs up!

Ed Emberley is fantastic, and I was so excited that he had a "new" book out that I didn't notice the small print. This isn't a new book, but a compilation of the Fingerprint Drawing Book and the Great Thumbprint Drawing Book. I'm not upset, because I love giving these books as gifts and will happily give this one, but I was very disappointed that it was not, in fact, a new book from Emberley.

I purchased this book to use in two art camps. One was focused on printmaking and the other on cartooning. Once students open the book they were eager to try out the fingerprint illustrations and began looking for particular animals they wanted to illustrate. The book is colorful and appealing and provides a good starting place for kids to draw with ready success 'at their fingertips.' The only problem we encountered was the need for fine line marker for details as their fingerprints are small and their drawings were less successful if the marker they used was too thick or bled.

I had no idea what to give the grandparents for Christmas last year, then I found out about this book. My 3 year old son and I went through the book, picked his favorite ones and made drawings for all of the grandparents. Two things to know, some of the items are harder than others, especially for a three year old, and you have to help. They can do the prints, but you will need to do the detail work. The book offers many creative ideas for finger and thumb prints. I'm using it again this year on pottery at one of those paint your own places. If you aren't creative, let this book help you. The grandparents were wowed!!

We gave my 5 yo daughter this book, some washable kid's ink pads and a sketchbook this weekend for her 5th birthday. She LOVES it. She drew some pretty amazing pictures last night with just a little help to work through the steps. I'm sure she'll be creating masterpieces all on her own in no time!
