Customer Reviews

If you are looking at this on there's a good chance that I already know two things about you. First, you like looking at women in bikinis. Second, you really like looking at women in bikinis. So buy the book already. It's a huge book with some really top notch photography of girls in bikinis in it. Seriously. It's a very big book. When you're done looking at it keep it by your bedside. If someone breaks into your home you can use this book as a self defense weapon* to protect your home. It can also double as a coffee table that you can place other (much smaller) coffee table books on. I plan
on taking it on any plane trips I take in the future. If the plane crashes into the ocean I can use the book as a raft to save the passengers, crew, and most of the luggage. A great book for several reasons. Buy it already. If your wife gets mad at you for the purchase you can just open the book outside and use it as a tent when she throws you out of the house.

This book is essentially a tribute to the last 50 years of the Sports Illustrated Swimsuit issue. The book is large in size and is full of thousands of high quality images from the iconic magazine. There are lots of pictures that made the cut, plus a lot of extras and behind the scenes pictures to give the reader a more personal, in the moment feeling of being there at the shoot. The pages are thick paper and the ink quality is high. Very sharp colors and hardly any blurring throughout the book. Definitely a nice book to have on your coffee table. Since it’s Sports Illustrated, the pictures are classy and tasteful enough for any audience.

A Big, Beautiful Book! I received this book as a gift, and must admit: I love it! The large, err...very large size of the book makes it the ultimate in coffee table decor. The photography throughout the book is world class, with page after page of some of the most beautiful women on the planet. Although a 'guys book', it’s tasteful and bold, appealing to anyone whom admires beautiful photography, and beautiful women...ladies included! Truly, I don’t see anyone beyond the ultra uptight being disappointed with this book. Plus, the prices on makes for an incredible value. Buy it, enjoy it!

Ordered this for my husband’s 58th birthday. He thinks it’s a beautiful book. The girls and locales are lovely. It’s really in the category of "art book." Large format and nice thick paper. Well made book. Worth it.

very nicely laid out pages. Very stunning photos. Build quality of the book is great. (will most likely take up about half of a coffee table)*If you collect or like SI swimsuit; YOU MUST HAVE IT

A very nice review of these beautiful ladies throughout the years. Amazed with the creativity that has gone into these issues from every perspective. Amazing settings, amazing photography, unique swimsuits, and stunning women. Helped launch many a career!!

This is a high quality book that shows various pictures of the many girls who modeled swim suits for
Sports Illustrated. This large format book is a history of Sports Illustrated pictures of its swim suit models and the swim suit issues. It shows very appealing girls that are fun to see. It is sort of a celebration of the beautiful females.

Bought for a christmas gift and the recipient was thrilled. He really loved this book. It was given to someone who was up in his age and very sick. It really put a big smile on his face. The comment was "if you can't touch, you can always lookâ€”awe"! Large, nice quality book.
