5 Finger Movie Heroes: 9 Blockbuster Themes Arranged For Piano With Optional Duet Accompaniments

Synopsis

These nine all-time favorite themes have been arranged in traditional five-finger style, with the melody split between the hands, and without key signatures in the student part. Starting hand positions are illustrated above each piece. Fingerings that are outside the noted five-finger positions and those indicating a shift in hand position are circled for easy identification. Dotted quarter notes, triplets and sixteenth notes have been avoided. All of the melodic arrangements have optional duet accompaniments created to achieve a fuller, richer musical experience. Titles: The Dark Knight Overture (from The Dark Knight) * Hedwig's Theme (from Harry Potter and the Sorcerer's Stone) * In Dreams (from The Lord of the Rings) * Iron Man * James Bond Theme * Raiders March (from Indiana Jones and the Kingdom of the Crystal Skull) * Star Wars ("Main Theme" from Star Wars) * Theme from Superman * Yo Ho (A Pirate's Life for Me) (from Pirates of the Caribbean).

My daughter who is a beginner on playing piano loves learning new songs from this book! This is a must for kids who likes to learn songs that they are more familiar with.

Several well know melodies that include words. I did use one of these melodies as a recital piece for a beginning student.

My 8 year old son is doing well with this book. It is also nice that it has accompaniment for an adult

to play!

My son loves learning songs out of this book. After our Disneyland trip, he's been playing the Indiana Jones song nonstop. A very fun book to get kids to stay on the piano.

We love this music book! Better yet, my grandson and his piano teacher love it. Simple arrangements of familiar movie tunes, but the scores allow for some relevant teaching moments and rich accompaniment.

This is basically a primer level book. The songs are way too easy for a Level 1 student and needed a lot of notes added (by me) to make them more level appropriate. It is a good selection of movie songs and they provide duets, so adding notes was much simpler than having to compose them myself. Still- it is rather time consuming and annoying to have to do that. Also- the staves are the size associated with a primer level student- meaning some songs are 6 pages long- not bc they are long songs, but bc the staves are so large and spaced so far apart.

I bought this for one of my piano students (age 8, boy). He enjoys playing from it because it is something other than our lesson books. It unfortunately, the tunes are unrecognizable to him. I like that the hand position is shown for each song, and the songs are adequately simplified. For reference, he's been playing about 9 months, and is finishing up Alfred's complete level 1.
