Cartooning: Animals (HT134)

Synopsis

Ed Nofziger invites you into the fascinating world of cartooning with a special emphasis on cartoon animals! In this amusing guide, you will learn how to draw a veritable jungle full of cartoon critters, including elephants, dogs, birds, bears, raccoons, and much, much more! Discover the importance of exaggeration and how to use it, as well as how to create expressions and convey emotion in your animal characters and their human look-alikes. With all this valuable information plus handy tips for drawing animal feet, knees, and hands, you'll soon be bringing your own animal characters to vibrant life. This comprehensive book is an essential guide for anyone interested in the world of cartooning!

Customer Reviews

I have purchased this book 3 times. The first time I purchased it I was 13 years old. The price has only changed by 3.00 in the past 30 years. Ed was a great artist, one of the best. I only wish that he would have left us more art instruction for those of us who would love to follow in his footsteps. Truly great artists like this man are a dying breed with the onslaught of digital media.

Not what I expected at all, very little info and the books that came did not have the same cover. Also, not that much of a fan of her work, side view of animals ok but the lassie dog and cheeta faces did not seem to be correct as far as depth perception, they looked lopsided. So, I would do not get it, just a picture book.

It's a nice book, but a reprint of Ed Nofzinger's "Animals are for Fun" except for the cover, so now I have two of them!

This book is truely the best. I love it. Not even joking, this is what got my career of an animator + cartoonist going.
