dorothy may have had her horse of many colors, taking her into the city of oz, but i have something better, a magnificent, colorful and mighty horse who will take me into the days of my future fully imagined and fully realized. lucky me. lately, i have been looking for such a steed that i might ride into my past full of horses that i rode in a real world, and into a future world promising celestial gallops.

This is such a pretty planner. It's a good size -- neither too small nor too large -- with plenty of room for each day of the week. The hard cover guarantees it will last the entire year-plus, and I like the

band that keeps it tightly closed. The best feature is, of course, the absolutely gorgeous illustration on the front and back cover. It's almost Fauvist. If you are a horse lover, or just a lover of beautiful things, you should be well pleased with this planner.

As always, these planners are exactly what I need (which is why I buy them year after year).

Durable, beautiful covers, plenty of space to write for each date, and lots of notes pages in the back for miscellany. The watercolor horse picture is a nice, new change from some of the other art I've had on the planner covers, and it really stands out.

I actually use this planner as a small journal to write small things that have happened throughout the day and week. I also write weekly goals in the side margins. It's the perfect size and I love being able to keep track of milestones and thoughts of the day.

I discovered this brand of planner three years ago and it's all I use now. Beautiful covers, nice size for what I need. I love these so much and will keep buying in the future.
