Tangled Gardens Coloring Book: 52 Intricate Tangle Drawings To Color With Pens, Markers, Or Pencils (Tangled Color And Draw)

Synopsis

Color in 52 tangle garden designs and create beautiful art while relaxing your mind. Color your way to relaxation and make beautiful art, too! That's what you get with the Tangled Gardens Coloring Book. Filled with 52 tangle artwork originals from artist Jane Monk, the book offers images inspired by an imaginary stroll through an elaborate garden. Coloring in the pages reveals flowers, bugs, and hidden creatures. Inside a calm pond you'll color in glimmering fish, floating lilies, and darting dragonflies. There's even a tangled map to guide you through the color garden. Tangled Gardens Coloring Book begins with a basic color theory lesson and offers some techniques for using various types of colored pencils, pens, or markers to color in the designs. Monk teaches skills such as shading and blending, highlighting, and developing textures and backgrounds. Each of the 52 designs is printed on a page with a blank back, so you can remove the art from the book for framing when you're through. Unlike painting, you don't need to have the skills or training of an artist to create masterpieces. Thanks to the design of the Tangled Gardens Coloring Book, all you need to do is pick the colors you prefer and color within the lines. You'll temporarily disconnect from the everyday hustle and bustle, escaping to a world filled with creativity, inspiration, and serenity. The act of coloring is actually a calming activity that soothes and relaxes the brain, helping to reduce stress levels, elevate focus, and promote an overall sense of well-being. So, sharpen those colored pencils and prepare to relax.

Customer Reviews

This is not only a beautiful coloring book filled with 52 intricate hand-drawn designs but it is also an extremely well made one, too. The designs in the book focus on the garden, with many floral subjects. As a gardener, this focus is very appealing to me. The book goes far beyond that and has animals (rabbits, owls, etc.) as well as birds and insects as well. The artist's style makes me think of whimsical and fun times but the designs also have very intricate and sophisticated styling under the playful surface. Each of the designs seem like they will be a great coloring experience. As if the designs alone were not enough, the artist has included page and page of information teaching various color theory and techniques. I've seen other books with some information in them but this is the most detailed one that I have seen as yet. I'm impressed and will certainly be putting some of Ms. Monk's suggestions into practice. I'm also impressed enough that I will be purchasing her first book in the near future, too. The book is very well made and is slightly smaller than a standard coloring book. The pages are printed on one side of heavyweight bright white perforated paper. Some of the designs extend past the perforations but nothing of note will be missing if you remove the page from the book. The binding is sewn in rather than glued. My markers were a mixed bag when it came to coloring in this book. The only ones that consistently did not leak through were my Staedler triplus fineliners. My Tombows dual end brush did not leak when I used the brush end but did with the marker end. All other markers – both water and alcohol-based leaked through. My gel pens did not leak through but needed extra drying time. My various coloring pencils all worked well.
