## Customer Reviews

One of Creative Haven's best coloring books. Every illustration in this book is Beautiful with outstanding art work; you won't know which one to color first! School aged children and adults will love this book. I am adding a picture that I used both Gel Pens and Colored pencils on.1. This book has a nice variety of nature illustrations which include 11 Bird, 6 Butterfly, 3 Mammal, (Giraffe, Zebra, Meer Cats) and 7 Seascapes (dolphins, whales, fish, seahorses, and sea shells) then add a Salamander, Frog and Bee, everyone will find a picture they just have to color.2. 30 Illustrations one per page, (the back is blank) printed on Heavy weight, perforated, bright white paper, outlined and

framed in with thin black lines.3. Perfect for crayons, colored pencils, Gel pens, or Markers. Place a scrap piece of paper under the page you are coloring and leave it until the page is dry if your Gel pens or Markers leach through the paper or remove the page from the book4. Very detailed pictures and along the binding each species is identified so you can look them up if you want to. This is great for children.5. The Illustrations are collages of the species and/or like my favorite one 13 good sized cardinals sitting on tree branches with leaves and round berries.

This book has beautiful images. I would like to find more books by this artist. One image per page, backs blank. Bleed through does happen, so use care to protect the next image.

Love this coloring book! White heavy pages and the prints are clear & precise. I buy these books for the children in my family & they love them! Good colored pencils are best used on these. But you can use fine-tipped markers as well...but they may bleed through. Colored pencils & a sharpener is all you need for the best end results. I highly recommend this coloring book for all ages!

This coloring book is absolutely beautiful. Some are a little more detailed than others. I really like how they have a simple explanation of the picture on the side. The only picture I don't understand is one of a herd of zebras with very little background... it's already colored ;)

EXCELLENT !!!!A great intro to colors and precise use of pencils or pens to create lovely color filled picturesEach one can be easily taken out to frameGreat way to exercise/learn/practice creativityBest for talented beginners to intermediateGood to relax or use as an art project especially if encouraging a budding artistgreat for homeschoolers as well !!and it is FUN !!!but, as an adult who has done artwork before , coming back and actually doing this was I teach a young artist in the makingI see it is challenging and a very good way to learn precisionHOPE this helps YOU!!PS The young artist will want to frame the ones they REALLY like!!! Be ready to make /buy some frames !!

I am 34 yrs old and I still love coloring. This book is perfect for the adult colorer. There's intricate details and the pages are one sided.

How relaxing it can be to work on any of these fun pictures using whatever medium you have on hand. I have several different of these type books and I enjoy them so much. Very hard for me to just sit still but I can when doing one of these pictures.This book has some really cool pictures, the

one on the front is still my favorite. It is very interesting to mix your mediums and you can use any color you want, doesn't have to be what the world would expect....try a pink and green zebra for instance.

i recently purchased Nature Scapes- it's really enjoyable and you feel good after the finished picture. this paperback is good quality & contains pretty accurate drawings. i highly recommend this product.
