I own a number of coloring books by Miryam Adatto and each one has been a source of great fun to color. "Magical Landscapes" is the newest in her great line-up of books. In this book, Ms. Adatto takes us on a scenic tour of her fantasy land by way of wild and bold landscapes. There are touring scenes, streams, deserts, trees, huge suns with streams of light pouring from them, and flowers abound everywhere. For me, coloring in one of Ms. Adatto's coloring books is an adventure in imagination. I spend time studying the lines and swirls, looking for what the design says to me. Some of the elements are fairly clear cut but others are left to my imagination. I find that unique, very fun and challenging. For my first four projects, I've started with a variety of alcohol-based markers. I've recently started adding layers of coloring pencils on top of my designs (which I did with

the tree project in this book.) I had such fun trying to decide what colors to use. For instance, seeing the sun and rain in one design made me think of rainbows so that is how I colored it “ with lots of rainbow colors streaming down from the sun. I will provide detail about the physical attributes of the coloring book below but here is a quick overview of what I found:

- 31 Imaginative & Magical landscape designs

Designs are printed on one side of perforated paper
Glue Binding
Designs stop before the binding
Book is easy to lay flat
Alcohol and water based markers bleed through the paper
Gel pens and India ink pens either bleed through or leave shadows of color on the back of the page
Coloring Pencils work very well with this paper
The book is well made.

This is the third coloring book I have purchased by Miryam Adatto , and this one is my favorite one so far, this book has less redundancy with the same artistic, flowing , dreamlike landscapes. Every image except one is in a dreamlike, fantasy, flowing landscape form filled with natural elements brought together in the most creative and imaginative illustrations to date by this artist. You will find some of the landscapes flow into each other such as water, floral , clouds, and sun beams, some of the illustrations are more abstract than others. You will find illustrations with themes like: Forests, Mushrooms, Flowers, a Bridge, Swirling water s, a Desert Mountains, and many more. I find this type of coloring book inspires me, it forces me to use my imagination and they are just plain fun to color, I love trying different color combinations, and textures with these fantasy landscapes. The cover picture is included in this book, and if you love the cover picture you will love this book, I like many of the images better than the cover. This book also includes two full paged colored illustrations to kick start your imagination, I am uploading these along with the 3 pictures I have colored so far to help you decide if this book is just right for you. I do hope you will upload and share your own colored pictures, to give me others more ideas for coloring these imaginative pages.
