## Customer Reviews

Doodling for Fashionistas is a fun and funny drawing book for young people. It offers examples and teaches simple doodling-level illustrations that anyone could draw and enjoy. The illustration style is one of cute abstraction, and is actually quite clever. It starts with basics â like different styles of shoes â and building from there, calls for using those skills, later, in more complex doodles.

Excellent book for a young person, who likes to doodle, and loves fashion. My pre-teen daughter is especially enjoying it!

Doodling for Fashionistas says itâ™s for the diva designer in you. The illustrations are quirky and cool, and donâ™t have any sign of pretension that diva might imply. The book includes doodle prompts and step-by-step exercises and work really well whether your creativity needs a bit of a nudge or youâ™re ready to full-out design some shoes. And themes include âœhighbrowâ • items like gowns, as well as funny things like onesies for adults. Along with the many pages on doodling, many are also on other aspects of fashion like quizzes, and terminology on shoes and clothes. I received the entire series of six books as a gift and I love them! They are all very well-made with a high-quality cover that blurs paperback and hardcover. Fun for you on a rainy day or a great gift for a budding designer of just about any age. Maybe at least 12 or so. Fun stuff!

If you like fashion and like to doodle then this book is for you! I love sketching ideas and coloring my favorite obsessions- clothes, shoes and accessories! There are lots of prompts and games in this book with plenty of room for your own creations. I bet every fashionista no matter what age would get a kick out of this pocket size book of fun.

Gemma's wit and humor permeates every page of this delightful book. As someone who is more familiar with Gemma's pug and kitty drawings, Doodling for Fashionistas shows that her drawings of people are just as fun and charming as their animal counterparts. Would make a great gift for a hip tween/teen in your life, as the book is well produced (unlike the many cheaply-printed activity books that flood the market). Very cute!
