Customer Reviews

I received this product free in exchange for a fair and honest review. Summary: "Fashion" contains 31 pictures and a title page. It measures 5 x 7.25 inches and is glue bound into a thin, matte cover along with a heavy piece of cardboard backing. Featuring black and white line drawings of various fashion accoutrements, this book is appropriate for colorists of all ages and skill levels. Paper: The paper in this book is bright white and fairly heavy (think scrapbooking weight). All pages are single sided and perforated. All mediums should be okay to use, but wet products may bleed through. Be sure to place several sheets of blotter paper under your current picture to avoid potential issues. Artwork: As previously stated, the artwork in this book is fashion themed. Inside you'll see purses, shoes, jewelry, dresses, glasses, watches, and more. Some of the pictures feature a single large item, while others show a whole outfit. There are also quite a few pattern pages spaced throughout as well. All artwork does run to the edge of the page, so many elements abruptly end

halfway through. Print quality is well done and detail level is fairly consistent. Picture completion time should range from 45 min.- 2 hours(may be slightly different for each individual). Overall, this is a cute, half-sized book. It would be best suited for colorists who enjoy fashion/patterned imagery.

Fashions galore! This is a fun book to just look through. Busy, creative and full of styles!! What a load of fun.I have been doing shoes. There are loads of pages with shoe and when I am finished I want to hang them in my sewing room for they are definitely going to be colorful. Almost a patchwork affair.The best part of owning your own coloring book is you can color anything and everything just the way you want to.thats why I'm doing shoes. Color-filled shoes.This is particular book has 31 pages to work with. My grand children love to color with me. We have found that ink-pens work really well with this paper and the art work, and colored pencils are good also. Liquid markers are okay as long as you go lightly on the paper for it is not watercolor grade and it will muddy and gets the paper too wet. The lines are too condensed together to get crayons in them properly.It is definitely a great project...alone or with someone else. Coloring calms a persons nerves..... I can get lost in the beauty of it.I believe you will enjoy some books of your own. They are great gifts for the young and the old.I received this product free in exchange for an honest review.
