Customer Reviews

I loved this adult coloring book. The pictures are each on individual, thick and original pages. No having to pick if you would rather color the front or the back of the pages. Some of the pages have easier to color designs while others are more intricate designs requiring more attention to be paid to the details. I prefer the more complicated designs because although it may take a bit of work to complete, when you are finished you are left with a picture you are proud to show off. Even though I am nearly 40 years old I am enjoying coloring in this book and am already hooked. I have already thought of how to decorate my room with some of my favorite pages. I used to love coloring as a child and have wished to be able to feel the escape coloring provided for me back then, once again. With this adult coloring book, I have been able to find that escape again, without feeling childish. Some of the words I have never heard before and are great for a good laugh. Some I could imagine putting on my front door to warn people to go away when I am in a bad mood. Immersing myself in one of these pages is definitely a wonderful way to escape from the daily stresses and worries of adult life. I received this product at a discount or free of charge in return for an honest review.
