## Customer Reviews

Adult coloring at it's finest. 50 shades of Bullsh\*t about sums up the reason I enjoy coloring so much. It's such a awesome stress relief. When I have a long day or just need some me time..I pull out this awesome book and some colored pencils and go to town. Love this. It's my new go to also for the perfect gift for my friends.\*I paid full price and did not receive this item at a promotional discount in exchange for a review.

I absolutely love this coloring book. I am a technical support representative and I am able to color this while waiting for certain things to happen while on the phone with customers. It let's out my frustration in a positive manner as opposed to sounding frustrated. I adore that it is the dark version of coloring books. The blacked out pages certainly make for an easier, prettier experience with these sheets. I do wish they were perforated. However, for the price there is absolutely no complaints from me. I will say I would be more than willing to pay just a little bit more for perforation.

I love this book, just one thing is that i think some of the animals and pics look kinda juvenile but other than that its great :)

This adult coloring book has a lot more pages then most others. It has some fun swear words. It has too many pages of the "C" word. Other then that it's a great book. The pages have a good amount of details. It has a lit of nice designs. It is very fun and relaxing coloring in this book. The pages are thick enough and don't bleed through. This book is a good quality. I highly recommend this product. This adult coloring book makes a great gift. **\*\*DISCLAIMER\*\*** I purchased this product at a discounted price in exchange for my honest review. The discount that I received did not alter my opinion in any way.

I've bought a couple different curse word coloring books and love this one the best. I use gel ink pens and with the dark backgrounds this book has, the colors pop more than it would with a white background. Granted, I'm not going to hang these on my walls at home but for the simple pleasure of creating something that's very pretty but still awesome and funny, I love it. Definitely buying more and giving them as gifts for Christmas.

This is my first coloring book from Alex Fleming. I like this one just as well as the second. They are a tad vulgar for me, I am sure because I am over 49, but most people would get a good laugh. I was offered this book in exchange for my honest review.

I think this is a really cold but. I mean every adult loves to color. And it's even better when a book is made for adults. It is fun coloring words but you can't normally colored in everyday life. It helps get your frustration and anger out so you can be more calm. It also helps relieve stress and leave it in your picture. Which leaves a colorful picture. It's where it is hidden and flowers and animals. I am

really enjoying this book and I know why well for the months to come

This coloring book is so cool; i like how the outside of the coloring book was made the beautiful pictures on the inside, the birds were awesome on each page i got a good laugh on each page that they are the cutest adult sassy coloring book i would recommend this book over and over again.
