## Customer Reviews

I was looking for something new to try, with coloring books, and found this, Adult Black Background Coloring Book. Attached, are a few photos, showing finished pictures, and a variety of pages throughout the book. I love the variety in designs, but especially the black background! It makes the colors pop, and really stand out, when using markers, or gel pens. Or, for a softer effect, colored pencils glide in like butter. The paper quality is excellent, even for alcohol markers. I only wish the pages were perforated, but I removed my page with a xacto knife, with no problems. I really look forward to using more of this book, as the designs are all so varied and beautiful! It's truly a fun, and

relaxing coloring book! Photo #2: Alcohol markers, with clear glitter gel pen accents. Photo #3: Gell pens (metallic). Photo #4: Beginning of another alcohol marker page. Photos #5-#15: A variety of pages found throughout the book.

I'm thoroughly pleased with this book. It is printed on single-sided average white paper with no perforations. However the designs are absolutely awesome I am loving that there are 60! Yes 60 pages. I'm a new fan and we'll be keeping an eye out for her additional books I included some additional pictures to help you decide if this book is for you... Which I honestly think you can't go wrong. The print quality is great

I have two of her other coloring books but the backgrounds were in white. This is my first coloring book with black as the background. At first I didn't think I would like it but boy does it make the color pop on the page! After coloring a few pages now, I notice that it is a lot more forgiving with the black background and staying in the lines. I love her designs. I love how she only puts one design on the page and nothing on the back. I love her attention to detail. I like that she does floral designs and mandalas in the book. I have many coloring books but I keep going back to her style and design. This book is a five and so are her other ones with white backgrounds!

I've been coloring since Susanne Fincher's 2004 Coloring Mandalas 2 (Shambhala Press) was released. Jenean Morrison has done a beautiful job with this book. This is the first coloring book I've used that has a background (new word?!) and it's beautiful, on all levels. The designs are varied, from pop art floral, to primitive, atomic, and victorian. And yes, the background's great for when you don't want to worry about staying within the lines, yet you've got very intricate designs that do pull you back in to focus. concentrate. Beautifully balanced and designed, I'm looking forward to checking out more of Morrison's books.

I have been a fan of Jenean Morrison's fabric for many years now and when I found this coloring book with black backgrounds, it reminded me of the coloring kits with the velvet from when I was a child. The markers and colored pencils just POP! I have enjoyed coloring since I was a youngster and find it very relaxing and I see many hours of fun and relaxation between these cover!

Whether you're just starting to explore the exploding adult coloring book scene or are well and truly hooked, this should be high on your list. The black backgrounds make it easy for you to achieve

dramatic effects and are a fun deviation from the usual white. The book is slim and easy to manage. The designs are varied. Long time fans of Jenean's work will find many favorites within its pages. All in all, you just cannot go wrong.

Fantastic! The black backgrounds take the anxiety out of adult coloring books for me. I usually find them to be too intricate which does not help me relax and enjoy coloring. Jenean's book has allowed me to enjoy coloring and encouraged me to explore different colorways. I've used colored pencils and a couple of different colored pens and markers. This book might just save my sanity.
