Laetitia Casta

Synopsis

Revealing the infinite variety of the "World's Hottest Woman" (Rolling Stone) She's the hottest French export since Brigitte Bardot. She's graced the runways of Galliano and Gaultier and appeared on hundreds of magazine covers worldwide. And in a world of gaunt, underfed, pale models, she's a bodacious, curvy, voluptuous breath of fresh air. She's Laetitia Casta. Called "the sexiest model" by Details and "the most beautiful woman in the world" by Paris Match, Laetitia Casta is on her way to becoming the supreme supermodel of the decade. Featuring the stunning, revealing, and erotic photography of Ritts and Isserman, Laetitia is filled with the most sensuous photographs ever taken of this modern-day Aphrodite. Complete with accompanying essays on Laetitia's world and her outlook on life, and including previously unpublished photographs and a full-color poster, Laetitia is the sexiest book in bookstores this year. Already a frequent cover girl, Laetitia is the new face of L'Oreal and a featured model for the Victoria's Secret catalog. She has starred in ads for Chanel, Ralph Lauren, Isaac Mizrahi, and several Guess campaigns. She made her screen debut in this year's film Asterix and Obelix, with Gerard Depardieu, and she has appeared in three Sports Illustrated swimsuit issues.

Laetitia Casta is, of course, a spectacularly beautiful and shapely model, and the photographers represented in the eponymous book are among the best and most fashionable in the world. Alas, the photos are vandalized by the worst reproduction and printing quality in a photo book in recent

years. Previews of the book in "Photo" and other magazines carry greatly superior reproductions of the images which here are out of focus and muddy. "Forms", by Patrick Demarchelier, carries several of the same images and a comparison of the two books is utterly humiliating for the dreadful Laetitia. As for the color images -- well, only the mini poster glued to the back cover offers anything worth viewing. Don't buy the book without seeing it first, so you can be sure of what you are -- and are not -- getting.

This book caught my eye while I was working in the .com Seattle Distribution Center warehouse. I love to see pictures of models when they were younger or "off duty." I guess I do this wondering how much of what I see is real and how much is done with make-up and the camera. What I found was that Laetitia is just as alluring in her youth and without the aid of fashion experts. Her family photos were the most amazing. The Mediterranean back-drop and Laetitia's haunting eyes seem to melt into one. For God sakes, put me on a plane and get me out of here! I highly recommend this book to those interested in beauty.

I love this book! I have always perceived that Laetitia Casta is beyond a supermodel. Unlike her supermodel peer, Casta seems to be very down to earth. Her quotes are very refreshingly honest. More, Casta is also physically capable as some of you might already know that she has successfully finished a boot camp training session in the French army. Yes, Casta is hot and some of her pictures are revealing. However, she is much more than a beautiful face and wonderful body. Casta is an intelligent, strong, professional woman.

Laetitia and the photos are good, but paper and quality of reproductions could have been much better. The poster is very good, but useless since it is folded into four sections! I would like to see a better quality book with more recent photos.

This book shows the career path of arguably the most beautiful woman on the planet. When Calvin Klein was talking about 'Supermodel is dead', there came Laetitia, fresh at 16 years old. And then when all the other models are looking doped and skinny, there came Laetitia, full-bodied and absolutely voluptuous with almost no straight line visible all over her 'look'. Then she took the whole fashion world by storm. Now she is one of the most featured model on magazine covers, Victoria's Secret Catalogue and countless fashion shows around the world. If you caught her on the Late Show with Dave Berriman, you know how wonderful this young girl is. I call her 'bubbly', very

cheerful, lovely smile with a positive personality. This book, with the most gorgeous photography displays the utmost in human beauty, well, the utmost in HEALTHY human beauty.

French fashion model Laetitia Casta is presented in a handsome oversized photographic exploration Laetitia Casta, with over 200 color photos gathering her most sensuous images (many previously unpublished). Followers of fashion photography will find this a particularly compelling collection of her many fashion styles and faces.

This book is sort of like an extended puff piece magazine article, with many glossy vogue-style photos. Laetitia is gorgeous, though these are not necessarily the best or sexiest photos of her by any means. A kind of collector's item tribute to a model of our time.

If you are a true fan of Laetitia Casta, you will really like this book, despite what some naysayers say about the quality of paper and selection of photos - who cares, she's so darn beautiful, it's fine anyway - enjoy it! There are pictures of young Laetitia and her whole family and relatives. I like this page, it shows more of who she is. Go get it, it's well worth the money!
