# Paint A 'Licious: The Pain-Free Way To Achieving Your Naked Ambitions

## Synopsis

Welcome to the "Paint A'Licious Salon", where "dreams and fantasies come true with the simplicity of a brushstroke". Nothing is as it seems when renowned artist and photographer Joanne Gair embellishes, conceals, and camouflages her human subjects with paint. "Paint A 'Licious" will have everyone talking this season. We're all familiar with trompe l'oeil painting, art that fools the eye. Renowned body painter and artist Joanne Gair takes the art of trompe l'oeil to an entirely new level with "Paint A 'Licious". But instead of disguising walls or canvas, Gair completely redecorates her human subjects. In the fictional "Paint A'Licious" Salon, Gair invites us to experience our wildest dreams through paint. Washboard abs are achieved without sit-ups, and an hourglass figure requires no liposuction at this specialty salon. By painstakingly painting her subjects - a process that takes many hours - Gair blends them (nearly imperceptibly) into the background scene. You'll be scratching your head in amazement at the fantastic optical illusions Gair creates. A painted child "disappears" under the Christmas tree, barely discernible from the wrapped gifts. A naughty nurse in a uniform made only of paint arrives to cheer up a patient. And are those plaid biker shorts or just a tartan paint job under that Scotsman's kilt? "Paint A 'Licious" is the book everyone will want on their coffee tables.

## Customer Reviews

Joanne Gair's book is a work of art! It's filled with many pages of comedic and colorful human canvases. Paint A 'Licious is much more humorous than first expected, and I was quite impressed

with its magnificent creative concepts. The details and colors are amazing. Also, I love the fact that in the back she has photographs of each photo shoot to give the novice an idea of the complexity involved. For any art lover, or just anyone with a sense of humor, this book is a must! Look out, Anne Geddes!

OK, the nudity part was what made this book intriguing, but it isn't lewd. GREAT paint jobs. Each photograph or series of photos tells a very short story. They are accompanied by quotations which enhance or explain the photographs. Give this book as a gift to someone who appreciates photography, art, humor and the human experience. The entire volume takes about 15 or 20 minutes to thoroughly enjoy, but you may want to repeat the process a couple of times. Some of the camouflage paint jobs are simply amazing!

I have long admired Jo Ann Gair for her amazing artistic ability applied to human form. I was so pleased to enjoy the funny and heartwarming work of art by this extremely talented woman. The care, production value and attention to detail in each image is astounding. A true gem of artistry and humor to enchant your friends and family.

The idea and premise was good but it never left the ground. It also lacks cohesion and direction..it's just a collection of nice pictures. I wouldn't buy it again, I was not impressed...I would suggest you pass on this on...

Really dated book with mostly corny advertisements, nothing all that sexy or glamorous or as intricate and mind blowing as what occasionally makes it's rounds in viral social media pages nowadays. Still Joanne is one of the pioneers of this type of art so the work deserves respect.

This delightful collection presents dozens of painted works, all painted on the models' skin and clothing. Although the collection as a whole has a hit-or-miss quality about it, there are plenty of charming and witty hits. For example, the back cover shows the back of a kilted bag-piper, with his kilt akilter in a gust of wind. Underneath his tartan, we see the same plaid painted across his thighs and rear - so that's what's under the kilt! A piece titled "Feel Free" shows a prison cell with the prisoner camo-painted to blend in with the wall. "Young at Heart" is just one in a recurring theme. Not only has a bathing suit been painted onto an unsuited figure, but the edges of her fleshy form have been made up to match the background leaving a slimmer, sleeker figure drawn across only

part of the model's actual width. My favorite, though might be "Santa Trap." A small boy waits up on Christmas Eve to see Santa come down the chimney. His skin is painted over in patterns of gift wrap and christmas tree greenery, making his stakeout very nearly invisible. Not all of these pieces work as well as the best, but the collection as a whole is very enjoyable. It's cute and clever, but not all of the pieces worked for me. Nudity-shy readers might or might not be put off. Many of models are topless or bottomless, but it takes a very close look to see that they're painted rather than clothed. I honestly can't say whether this counts as nudity or not, but it does contribute a sly edge to a number of photos. No matter, it's all good fun.-- wiredweird

This book is for everyone! Joanne shows her enormous talent and sense of humor. What a pleasure to look at and share with others. This will be around a long time.

Imaginative and fun. The beautiful illusions only co-exist with the storybook like photographs.
