## Customer Reviews

I was very disappointed with this coloring book. I have the same quality issues as another reviewer. Some pages are white and some gray. The gray pages have lines running through the background. A few of the pages look as if they have been put through a xerox machine one to many times and

now have a fuzzy quality with black dots spotting the page. Besides the quality issues, I don't find that there is much to be colored. The drawings are free hand and very few contain lines that connect in order to make coloring enjoyable. They certainly do not work as a meditation or stress relieving activity in the way that I believe most, including myself, are looking for. Take a look back at the cover of the book. If this type of coloring, shading and blending, is what you are looking for then this is the book for you. If on the other hand you are looking to blow off steam at the end of the day, and have very little artistic ability besides choosing colors to go with the picture, then look elsewhere.

The quality of this book is very poor. The pages are so thin, half of the drawings are blurry. Some pages are white, some are grayish. The graphics are horrible. I did not find anything good about this book, not even the writing. Waste of money.

These are great scenes to look at, but I got a little bit bored coloring buildings. The quality of the book is excellent, and each building/scene location is labeled, and the subject matter is okay, but some parts of the pages don't seem like they are meant for coloring. I really wanted to love this coloring book since it's the first one I ordered to try coloring as an adult but I do not love it as a coloring book.

Very excited to receive but highly disappointed upon receipt.....repetitive and non-inspired. It had the potential to be so much more. And this comes from an interior designer who owns several of these series of coloring books. I love them....this just drops the ball.

I just received the book as a gift and am so excited to get started. The drawings are great and like that each is identified by name from Hanover in Germany to Jerusalem in Israel, you'll find great Drawings to Color. For those who have not travel outside the US, it is helpful. Recommended

This coloring book has provided hours of entertainment. This is perfect for the nights you just want to escape the day without having to watch tv or go out. Simple, yet elegant pictures. I would recommend this product.

I am enjoying this book a lot because so many of the buildings are familiar and I prefer buildings, structures & vehicles as coloring book nature scenes are usually very nice to color. That is not to say this book is totally realistic with visually arresting global locales around the world. Lots of plenty

nice structure to color, love it! Highly Recommended.

Horribly illustrated book do not waste your money.
