Customer Reviews

I saw alot of poor reviews for this affist on other color by number books, but I have to say I like it very much. At a first glance it looks like there are no numbers, however, the artist rather artfully places the number lightly repeated thru the area for example if it is a square the square would be filled with the number. In doing this when you color it it will look more like a doodle pattern than just the number showing thru. I thought it was very clever. In the back of the book each of the designs are repeated with no numbers for you to be creative on your own, which is very popular with a log of Color BY Number Artist. I would buy her work again. Happy with my purchase.
