## Customer Reviews

This book it so much fun! It works well for markers, which is my preferred utensil. Since the pages are single sided, the bleed-through doesn't ruin another picture. I just place a few blank pages under the page I'm coloring because color does bleed through fairly easily. I love that the shapes in this book are large enough to add my own custom flair. I have several books with very small patterns that make me feel limited in my creativity, so of all of the books I've used for my coloring relaxation and creative outlets....this one is my favorite so far.

Great coloring book. It is easy to color, the images to color are not too small and you can finish a drawing pretty quickly whereas as a lot of other coloring books that I have tried to color, I have given up because they take forever and are not fun anymore after a while. I finished coloring the picture below in 75 minutes. I had a great time! Check out other books by this artist as well. Some of her books are two books in one and only 2 or 3 dollars more expensive than just getting one with 30 drawings.

Great buy, very nice pictures to color and the shapes in the images are fun and easy to color. Highly recommend it to anyone--even children would like this book. My 7 year old loves coloring with me.

I've been looking for an adult coloring book and came across this one. I was a bit iffy since someone said the papers were thin, but I decided to get one anyway and I love it! Definitely feels like regular paper, not tissue. Such a great way to relieve stress and I just love that the maker of these books is an actual LMFT who wants users to use her products to feel better. And I love that she created all these pages on her own!!! I definitely get lost in time when coloring a page.
