Customer Reviews

I love all of these products. My favorite is of course the colorist books, and I like the fact that I can colorize them and then put them on the front of a greeting card. Everybody that receives them likes them also, they're very colorful, and of course everybody will color them differently.

We all need to take time to slow down in this world and even more so when you are planning a wedding! I bought this to give out as party gifts for a bridal shower I am hosting â€” everyone loved the designs! So fun! Can't wait to see what else Maggie Clemmons designs!!

I loved the fresh take on this beautiful and richly designed coloring book. I'm excited to spend hours

relaxing with these pages and getting my color on!

Just got this in the mail! I can't wait to get started. Lots of illustrations from beginner to advance to play with.

Gave as an engagement gift with colored pencils and is a lovely book. Will order from again.

This was an amazing find! I am addicted to romance novels and love to color and this paired the two perfectly. It was the perfect way to relax after a stressful day at work.

The bride loved it, kept her calm while waiting in her room for the time to go down the isle
