So I got this book awhile back. It's a great coloring book!! It's fun for adults and children. Lots of patterns to keep advanced colorers interested, and lots of fun pages to keep children enjoying the book! Amazing artwork. Worth buying for anyone who enjoys coloring.

Since I would love to travel the world but can't really afford to visit all of the places on my very very long list, it was so fun to travel there through this coloring book. I have colored Costa Rica, Italy, and London, and it felt like I was getting to spend a little bit of time there in a sense. I researched what colors and patterns they used in those countries, and then colored accordingly. It was very fun and rather relaxing. I would highly recommend the book.

I'm a flight attendant and super into coloring books, so I thought that this was a perfect find. I was pretty disappointed when I received the book, however, as it wasn't all I was hoping for. The pictures are hand-drawn, which makes it harder to color than the books with the thick printed lines. The pages are also pretty thin, so no markers for this. I ended up getting through a half of the Thailand page and gave up and haven't touched it since. Disappointing!

Absolutely precious coloring book for young tweens to full grown adults. Embark on a journey from Japan to Mexico, Russia to Australia, and find yourself wishing you could step in the pages! I would recommend this to everyone who has a fun and yearning spirit to know and see more of the world!

Just got 4 copies of this coloring book after supporting artist/author on Kickstarter. That support got my four dogs looking at the Shinx in Egypt. Beautiful work of art looking forward to adding color this winter and at age 72, I will feel like a kid again.
