Classic Flash 2: In 5 Bold Colors

Synopsis

In more than 100 pieces of contemporary flash, "Tilt" and his collaborators celebrate the lineage of tattoo artists who have paved the way while looking forward to the future of tattooing. Using the five classic bold colors (black, red, yellow, green and brown), the flash in this second volume continues to explore the importance of the origin and essential foundations of tattooing while making its own mark on the visual history of this folk art. Offering a broad range of themes, this is an ideal flash book for anyone in the tattoo industry.

Ordered this for a Brazilian friend who is a tattoo lover. He loved the book and couldn't wait to take it home to show his tattoo artist but he was a little afraid that the guy would want to borrow it!!!!

If you like ultra realism or new school then this book isn't for you. Go back to art school or painting on train cars. For those that are into authentic Tattoo art, then this book is for you. American traditional and Japanese tattooing styles are represented and are very well done.

A great follow up to a classic book, Classic Flash 2 is a "must own" for any tattoo artist or artist in general. It's filled with great images and more Japanese inspired work than the first book. I'm glad I purchased it and at such a great price!!

Excellent book and arrived in very good conditions. Very satisfied with the purchase. I recommend it.

Thanks for all the attention.
