Jeter Unfiltered

Synopsis

The only authorized full-color book commemorating Derek Jeter's iconic baseball career with the New York Yankees, featuring archival images and original photos of his final 2014 season from renowned photographer Christopher Anderson. Derek Jeter's twentieth and final season in Major League Baseball truly marks the end of a sports era. The New York Yankees' shortstop "a five-time World Series victor, team captain since 2003, and one of the greatest ballplayers of all time" is a beloved and inspiring role model who displays the indefinable qualities of a champion, on and off the field. *Jeter Unfiltered* is a powerful collection of never-before-published images taken over the course of Derek's final season. Fans will have unprecedented access to "The Captain," as the famously private baseball legend takes us behind the scenes "inside his home, the stadium, the gym, at his Turn 2 Foundation events, fortieth birthday party, and more" as he looks back with candor and gratitude on his baseball career. The result is an intimate portrait bursting with personality, professionalism, and pride. *Jeter Unfiltered* is Jeter as you have never seen him before: unguarded, unapologetic, unfiltered.

Customer Reviews

DJ3K like you have never seen him before. This book offers 250+ pages of a dive into Jeet's personal life. He has some really great behind the scenes pictures. My favorite is the one of him in the Bronx when they were taping his commercial where he walks to the stadium. It is a picture of him standing in front of a garage with a painting of him. This was a real thing. In order to be

genuine they decided to get out of the car one day and take pictures of Jeter walking around the Bronx. He had security and the bar knew roughly when he was coming but it was all genuine fan reactions. There is also another great pic of him and his mom looking at Nike cleats. He said he went to the Nike factory in Oregon to work on a cleat for his injured ankle. If you are a fan of the man, the Yankees, sports, or baseball please get this book. If you are a fan of someone who always does and did the right thing, you should check this book out. My 1 complaint about this book is the size. I wish it was one of those oversized books so the pictures were bigger. Derek Jeter played the game of baseball the right way and these pictures help tell his story.

I'd purchased another Derek Jeter book more than 10 years ago ("The Life You Imagine"), which my husband (a Jeter-lover/Yankees-hater, if that combo is possible!) so much enjoyed. Recognizing he's been a sports "hero" of my husband due to his lifelong character/values, and one who'd actually made it to the end of his career without doing something to tarnish his reputation, I was drawn to this book by the word "Unfiltered". My husband had always admired his restraint in the public forum, and I thought this would be a book in which Mr. Jeter might share some of his long held but little publicized views on various topics. It's not... it's basically a photo collection documenting his last year in baseball. My husband didn't feel that any of the brief passages Mr. Jeter wrote to go with the photos shed any more light on the man (nothing that hadn't already been written about, anyway), and though he'd admired him greatly, flipping through a bunch of pictures just isn't his cup of tea. In fact, he said it was a little disappointing that (especially at \$17+) this was an "easy money" book... if the book had been published with the intention of having all proceeds go to, say, his terrific Turn 2 Foundation (focused on helping at-risk kids/teens to avoid substance addiction by rewarding academic achievement and embracing a more healthy lifestyle), it would have been great. (And again, there's that title... pretty misleading, in our opinion.) Great pics, if you're into that sort of thing; otherwise there are other Derek Jeter books that might be of more interest (and provide more than one or two night's worth of entertainment for your dollars!)

I'm a Jeter fan and have been since he started. I follow sports pretty closely and his reputation is one of being very guarded in his dealing with the media - careful in his comments, nothing controversial. I thought that an unfiltered look at him would shed some light on his feelings about various issues - A-Rod, the Red Sox rivalry, steroids, etc. There was not much that was revealing. It's pretty much everything he's said in the past - about his parents, his fans and his love of the game. On the other hand, the photos were beautiful.

Best Christmas gift of the lot. I got this for my Jeter fan and while I was worried after reading some of the reviews, they proved to not be an issue with her. She loves, loves the book and shared with me the events around the different photos in the book. The fact that it was hard back was also a huge plus.

NOT QUITE WHAT I EXPECTED IN TERMS OF A BOOK PER SE. GREAT PHOTOS OF JETER IN ALL SITUATIONS OF HIS LIFE. JUST SMALL CAPTIONS OF HIS FEELINGS REGARDING CERTAIN SITUATIONS. NOT REALLY A BIOGRAPHY OF HIM. STILL, IF YOU LIKE THE MAN, YOU'LL ENJOY THE PHOTOS.

what a great career by the Greatest New York Yankee Ever and this book takes you back and reflects on various times of his great career as the captain of the team. this is a great overview and tribute to Mr.Yankee Himself Jeter.

What a wonderful book. Gave it to our son as a gift but had to read it first. We all (husband, son, and I) loved it. We also love Jeter and will miss watching him play. He is as good off the field as on.

Imagine sitting with an old friend, sharing favorite memories, going through stacks of old photos and reminiscing about times gone by. You might share some funny stories, tell some heartwarming tales, or talk about life's ups and downs from days gone by. The photos might raise memories of treasured moments, goofball moments and some once in a lifetime moments. That's what reading Jeter Unfiltered felt like to me. It's essentially a 256 page photo montage based on Derek Jeter's last year as a major league baseball player, but it is so much more. There are also pictures from Jeter's minor league days, career milestones, his Turn 2 Foundation and his closely guarded personal life. Fans of the man, the player, the team and the sport will smile at the memories the pictures recall. Accompanying the excellent photos by Christopher Anderson are the words of Derek Jeter. Many pages have no text; the pictures speak for themselves. Others have commentary written as if Jeter was sitting across the table talking to the reader. There is a consistent message, as well: team first, preparation, practice, loyalty and leadership. This is no surprise to anyone who followed Jeter's career yet it is somehow refreshing to see these values in print and repeated throughout the book. It took less than two hours to "read" the entire book. I'm going to read it again. There might be something I missed in one of the photos the first time through. Or, perhaps I'll see a new meaning in

Jeter's words. Maybe it was such an enjoyable trip down memory lane that I just can't wait to go again. This is that type of book, one you'll pick up over and over again.
