## Customer Reviews

We are so excited these new Jazz and Blues books are finally out! We have waited for a long time! One of the things we love about Faber is being able to buy the different music genres in these skill leveled books. They are fabulous! We are very pleased with them. The Jazz and Blues genre is fun! The songs are really easy in this book, and quickly get you used to accidentals. You really cannot beat the price on these little song books. If you love Jazz, you will love this. If you are not so much into Jazz...you may be after playing through this book!

My students of the 1990 through my students in the 2000 teens all light up with smiles and bounces as they learn these jazz pieces spanning the past 100 years. The composition and style adheres to Faber and Faber's easy to learn methods.

I really enjoy the Faber series of piano books, but I am giving this only 4 stars because the songs

are not the most recognizable nor challenging to play.

My kids needed it for lessons and it is really an easy book for them to follow. We liked it

Waaay to simple (I'm a third year student) & has nothing to do with jazz or blues that I can see.

Would send it back but the shipping would cost more than the book. If you are looking for a starter book on blues, look elsewhere.
