Prof. Wade’s book is an excellent guide to teaching ethnomusicology at the undergraduate level. I am teaching a world music class with primarily inner city minority students at John Jay College of Criminal Justice, CUNY, who are taking the course to fill general education requirements. The exercises are highly relevant to any investigative discipline in the social sciences, and have the added pleasure for the students of relating to music.

I am using this book for a Non-Western Music class in Grad school and it is AMAZING! The 2 CDs
that come with it are packed full of authentic and fantastic recordings from all over the world and each are explained in narratives in the book. Best textbook I've had through undergrad and grad school so far!

I would recommend this to anyone. The quality is superb, the service is excellent and awesome! This book is cheap, effective, and useful in any music course, specifically music appreciation.

exactly what we needed, nicely written, easy to understand/follow

The book was received in brand new condition. Great!

Came brand new as advertised. Thanks!
