Customer Reviews

We have used the Architecture calender books for about 10 years. They are quality publications in an easy to use format. With the book lying open, you see an interesting architectural picture on one page and space for one week activities on the other page. There is also a handy current month and next month calender in the margin. Quality paper and easy to write on with pen and pencil. A consistently excellent product over the years.

This ain't no cute kitty calendar. This is architecture with a capitol A. Selected photography of buildings, spaces, structures and hardware detail from submissions by students to professionals in the field are always intriguing views from familiar landmarks to obscure locals. The new picture with weekly schedule format always engages the eye and keeps my appointments. Spiral binding keeps it open flat. The year over; the picture pages are re-purposed to become envelopes for gift/cards. Favorites are collage'd under my desk plexi to inspire. Of note, when I called the publisher in early December to order; I was informed they were sold out. However, the receptionist suggested I might find it on . I did.

This was given as a Christmas gift to my daughter, an architect. She was very pleased with it.
