Portable, 1 sided coloring book. I shared a few pictures so you can see the size and bleed to the opposite side of paper. Pictures need to be justified right as the drawing goes too close to the binding on about half of the pages. Cute gift for \$5.

I bought one of Valentina's other 'On-the-Go' books, and after I received it, I immediately ordered the other two. These smaller books measure 5.25" x 8.25", so they are slightly larger than some of the other I have, but still small enough to fit in my purse (I uploaded a photo comparing it to a full size coloring book). The variety of designs is really good, and most are simple enough to easily finish in less than an hour--perfect for when you just have a little time to relax. Sometimes I don't have the patience or time for an intricate full-page design. (See my photos).*The paper is nice and thick, and my Stabilo 88 Neon markers only bled through a tiny bit, but not enough to transfer to the

next page.*Works beautifully with colored pencils (in my photos I used Spectrum Noir.)*The designs are single sided, with a quote and blank lines on the back of each one.The designs are mostly flowers and birds, but there are also a couple of full page designs (see my photos).I really like this book and I plan to order several more for my nieces and daughter for Christmas!

Lovely prints and very soothing to color. I also appreciate the quotes and sayings. I've concluded that it's not about how quickly or neatly you can color a design. It's about your journey in completing it and how much you've enjoyed whatever therapeutic benefits you've had while coloring.

I got a few of these books for my wife, and she absolutely loves them! They are a great size, and the pages contain gobs of detail to color in.

I've really enjoyed the adult coloring books lately and am always on the lookout for books with a different theme or look. I particularly love the ones that are a little bit smaller.Great things about the coloring book:1. perfect size2. fairly stiff paper, so it's fairly easy to color on your lapNot crazy about:the style (too many circles). I realize this is a personal style preference so I just gave it to one of my daughters who enjoys it quite a lot.I bought this and another on-the-go coloring book by the same artist, but they just weren't for me.

I have recently gotten into adult coloring for relaxation & just for fun. So far I am loving it. I am really attracted to Valentina Harper's design's & have bought several of her coloring books from . I receive excellent service from them. If you have the coloring bug this coloring book is for you. Highly recommended! You won't regret!

Great for anyone who has PTSD, depression, anxiety or just likes to color. Don't have to be a kid to enjoy it.

And this mini coloring book is no exception to her beautiful artwork. If you have many/all of her books then a lot of the pictures in here will be familiar to you, but I don't mind coloring some of them again at all. I love the size of this book because I can put it in my purse and color pretty much anywhere.
