## Customer Reviews

This is my favorite 'portable' sized coloring book so far. It measures 5.25" x 8.25", so it is slightly larger than some of the other I have, but still small enough to fit in my purse (see my photos). The variety of designs is really good, and most are simple enough to easily finish in less than an hour--perfect for when you just have a little time to relax. Sometimes I don't have the patience or time for an intricate full-page design.\*The paper is nice and thick, and my Stabilo Neon markers only bled through a tiny bit, but not enough to transfer to the next page.\*Works beautifully with colored pencils (in my photos I used Tombow Irojiten)\*The designs are single sided, with a quote and blank lines on the back of each one.\*The description on the back of the book says '...watercolors'. I have tried that yet, but I will update the review when I do.The designs are mostly mandalas and floral designs centered on the page, but there are also some full page designs and some with words (see my photos).I really love this book and I plan to order several more for my nieces and daughter for

Christmas!

I took this book and a set of colored pencils with me on vacation and was happy I did. Loved the small size. This book contains the typical Valentina Harper drawings, but just smaller versions, like what is shown on the cover. I gave it 4 stars because the book is hard to keep open while coloring. The binding is tight and is actually a little puckered. The paper is a nice quality. I'd pay a little more money if they made these with spiral bindings.

I loved the size of this coloring book, but I wasn't wowed with the artwork, like I am with some of the other adult coloring books. This rating is really a personal preference on the artwork and not indicative of the quality of the book itself. Like I said earlier though, the size is really perfect.

This book is a smaller size, just right for putting in your purse or tote bag. The designs are not as involved as some of her other books, but that's okay, because this is a book for those on the run. The designs may be more simple than her others, but that doesn't mean they're not beautiful when completed.

Love these small, intricate designs. Perfect for keeping in your purse or lunch bag. These are lovely mandalas and flowers, some featuring inspirational wording. The designs range from those that would take only an hour or less, to very detailed pages that you will easily spend days perfecting. Great for work, waiting rooms, stress management and facilitated meditation, and making gifts your grandma will still hang up.

I love the small purse-sized design. but many of the designs had too many blacked in areas for my taste and I didn't care for some of them. That may be just my preferences so I still have it 3 stars.

I bought these as part of a gift basket and out of all the items, everyone commented on this little book for it's great verses and perfect size for a hand bag. The front pages are instructional and the paper is good quality. I will definitely be buying more.

I purchased this for a trip - air, hotel room, cruise, air home. It kept my son busy for a looonngg while. This book is small enough to fit into a stuffed backpack, small enough to stay on an airline tray table, but big enough to actually see what you're coloring. It will be with us on all future trips -

car, hotel, Grandma's house, whatever. And I will definitely get another one when he fills this one up.
