## Customer Reviews

I fell in with the adult coloring craze but quickly got bored because do my own watercolors. Drawing was always kind of a bore for me, however the craze got me thinking and I just knew I had to start coloring outside of the lines, so I decided to pick this book up. Don't let the size of the book fool you.. this little guide is packed chock full of great suggestions and tutorials and is well worth the money spent.

I do not believe that a person can ever have enough how to books. I have been interested in Art, drawing, painting, coloring since I was very young. I am 55 yrs old and will never want to stop learning how to use what skills and talent I have and try to make them better. I would love to have the God given talent that some people with Art, but I just have to work at it a lot more.

Very clear and concise. Easy to follow instructions. Refers to YouTube video for clear understanding of her technique and process. Good instruction on colored pencil drawing of realistic looking work.

This book has lots of great advice and very useful techniques for the beginner and seasoned pro. And I love the videos that accompany each step-by-step example.

everything I could have hope for.
