## Customer Reviews

This has been a delightful way to allow our pianist and violinist children to play together. We have 5 violinists and 1 pianist. Before this book, our violinists would have to ad lib harmony to the piano songs and vice versa. I love that the book follows all the songs that our violinists already know according to the violin Suzuki books. The piano part is not dumbed down either. There is a nice accompaniment part for each song. It really sound so nice to hear the children playing in harmony. So encouraging for parents and children!

Let me begin by saying this is a review for the 'SAMPLE COPY' that offers. The 'sample copy' is absolutely WORTHLESS. You get to view the COVER and the second page which covers the COPYRIGHT/ISBN info. Not very helpful! I understand not showing any of the actual sheet music, but my main interest in looking at the sample was to see an index of the songs within this volume. I don't believe showing a list of the music you could play with a purchase of this volume to be unreasonable.

This book includes violin melody and piano accompaniment. I have found it very useful in helping my son practice, especially in keeping time and developing his ear. Most of the accompaniment is about intermediate piano level.

I was able to track my order and I was knew when where my book was upon arrival. The book was in great condition. This will be a very useful tool for my daughter and I. Thank you.

Has both the violin and piano accompaniment. great for practice.

This was a good book, but i wish there was more information about the degree of advancement. This did not dissapoint otherwise.

Great accompaniment. My daughter enjoys playing violin much more when I play accompaniment.

This is my favorite book to play along with the violin the songs are pretty simple and fun!
