Great for begginers! Let's face it.If your musical instrument of choice is the Trumpet,then you realize that there are these days' few well known actual pieces of music that stand alone for trumpet solo. But this one gets you there. If you like to experiment with crescendo's and intonations and different fill in notes(as do most jazz/and other improv musicians do)you will find every 92 of the Beatles Hits a good launching point to success.Since every players style and ear is different,these basics of their sheet music gets you there.And let me say this is not a training book but actual sheet music, with very little effort,you will be playing any solo in this book with confidence.Very Happy with this purchase!Five Stars!:)

I bought this book as a gift and they liked it. If your a fan of the Beatles you will enjoy.

There is a large range of skill levels so you can grow into the book...That being said it is designed for beginner / intermediate players...I have the trombone version so I can play tunes with my Granddaughter...

I learned the trumpet in grade school and played until my last two years of high school, and have not played new music in quite some time- this sheet music is wonderful, and I am surprising myself that I can pick it up again. Great Book, definitely recommend it to any trumpeter who loves the Beatles. A lot of fun.

Has some variations to original songs, but they are easy to play as far as range and the 'keys' they are written in. There are a lot of songs in this booklet.

Great book if you want to advanced your trumpet skills. Book can be both used by beginners and people who are already advanced in trumpeting.

happy. this arrived as promised. in excellent condition. this was for a gift and it will be perfect to go right into packaging.
