The Billionaire's Voice: The Sinclairs, Book 4

Synopsis

As an extreme-sports mogul, billionaire Micah Sinclair is comfortable taking risks. But nothing - and no one - has ever challenged him like Tessa Sullivan. He's fascinated by the woman who's overcome so much, including the loss of her hearing. The petite blonde dynamo, a small-town restaurateur on the Maine coast, is the most courageous person he knows, and he wants her in his bed. Now all he has to do is convince Tessa to explore their desire. After a lifetime of loss, Tessa's finally come to terms with her limitations. Or she would, if a certain sexy businessman weren't pushing her to want more. And to want him. All her remaining senses are clamoring for her to touch, taste, and feel. But her doubts tell her to go slow when their passion gets too hot. Micah's determined to prove to Tessa that she can still have everything she's ever wanted, including his love. But will she listen to her head - or her heart?

Customer Reviews

The fourth book in this series does not disappoint, in fact the series is only getting better. When we first meet Tessa she was simply introduced as the deaf restaurant owner, but I always wanted her to get her happy ever after. Every girl deserves it. Throw in the handsome extreme sports star that is Micah Sinclair and the fireworks were bound to start. Pushing each other to confront their fears, and talk about their heartaches opens their hearts to each other but also our hearts to them. I laughed, I cried, and ultimately I was filled with the most joyous feeling that I had to go find my own Micah and snuggle him to death. I highly recommend this series and all her other books. Congratulations J.S. Now bring on the next brother/cousin

This is another wonderful romance by J. S. Scott. You will laugh, shed some tears at the hardships the main characters have had and fan yourself at the hot scenes. We know Micah, the oldest of the Sinclair family cousins, from before. He is an extreme sports fan, hard worker and takes his brothers well being as his own responsibility. We find all that has had an effect on his health, and leads to some down time in Amesport, Maine. Tessa was an Olympic medal figure skater six years ago. Becoming deaf stole that passion from her. She moved to Amesport to help her brother, Liam, run the family seafood restaurant. She has been there since, helping daily but not really living her life fully. Micah is determined to pull Tessa out of her self-induced shell. They have both successes and failures. They learn about each other, and themselves, as they grow closer. You will love them as a couple and cheer for their happily ever after! I'm looking forward to more Sinclair stories.

Micah Sinclair is a billionaire who loves to take risks, all or nothing. No matter what he does he does it with his whole heart. When he meets Tessa Sullivan he realizes she is different from anyone he has ever met, not because she is deaf, but because she has overcome so much in life. He has never met anyone with her courage. Slowly he helps her realize she can have anything or do anything she wants and she wants him. I do love a good billionaire story and J S Scott's are the best. Her guys are always such alphas and they do exactly what they want. As I read The Billionaire's Voice I was a little disappointed at how tame Micah was in this story compared to some of her other billionaires, but the more I read I realized he was exactly how his character needed to be for Tessa. It was such a beautiful, moving story of two people, that life hadn't always been kind, who finds each other. The plot is well written, the story moves along very nicely and you can't help but cheer at the end. Loved it! Another hit for J S Scott!!! Received an ARC for an honest review.

Ms. Scott has done it again. I wait anxiously for each book in this series to come out. I have never, ever been disappointed. I have only one complaint, and that is that the books can't be written as fast as they can be read. I love your work, Ms. Scott. Keep em coming.

This is book 4 in the Billionaire series and I have read them all and preordered number 5. I gave this story 4 stars for only one reason which I shall reveal later. I have loved all of the books in this series, even though, to me, they are a bit heavy on the sex and foul language - but then I read Fifty Shades of Grey and, guess what?, it is too. Before I read that set of books, FSOG, I was told by one of the

ladies who recommended it to me that I try to read past the sex/BDSM and find the love story there - that it was a really good story. I have followed that rule of thumb since then and tossed out the parts I didn't care for and concentrated on the actual story. The Billionaire's Voice is the story of Micah Sinclair, the one of the cousins who is a daredevil. While he loves doing dangerous stunts, he also has a degree in engineering and wants to continue to improve the safety factor of the equipment used by those who participate in his extreme sports. In the prologue, however, we are introduced to a woman who has just suffered a humiliating loss and is about to step out into traffic because she is crying and can't hear the cars. She is saved by a young man who reaches out to her and pulls her out of the street, then gives her a ride to her home after learning what happened to cause her unhappiness. She is Tessa Sullivan and he is Xander Sinclair. Then in Chapter 1, we learn that Tessa has moved back home to Amesport, Maine, and in the space of one year has lost her dad and her mom. Because she is deaf, her brother quits his very profitable job in the film and television industry as a special effects expert and has moved back home to help her in their family's seafood restaurant and take care of Tessa. He is living in their parents' house. Because he has smothered her with protectiveness, she is now living alone in a house that belongs to a friend of hers but which is for sale. Knowing that when it sells she will have to move back home with her brother. Micah is one of three brothers: He owns his own extreme sports equipment company (design and manufacture), Julian is a movie star - literally a star, which has been his dream for years, and Xander is a musician but has lost his career to drugs and alcohol. Because Julian is often on location shooting a film, Micah has taken on the task of trying to keep Xander alive by himself and has refused to worry Julian about their brother's condition. Micah's emotional load has taken a toll on him and he is exhausted and has begun having migraine headaches again - he had them as a child. Then Julian, who lives in California, comes looking for him and just happens to be there when Micah gets a call that Xander has overdosed in California. The stress is too great and Micah starts having a migraine. When Julian learns of his brother's condition, he puts him to bed and goes to California to get Xander and bring him back to Maine. Meanwhile, Micah and Tessa have become friends and he is encouraging her to do things she thought were impossible for a deaf person. Up until she was 18 years old, Tessa was a championship ice skater and won a gold medal at the Olympics. She has received an invitation to skate in an exhibition of former champions to benefit the Sinclair Family Foundation charity organization. Because a perfect routine depends on following a piece of music flawlessly, she knows she can no longer perform. It turns out Micah has bought the property that is home to an ice rink her father built when she was a child on which she could practice. So Micah opens it for her to see what she can and can't do. After that, Micah encourages her to step out of her

comfort zone more and more. Finally, he broaches the subject of cochlear implants. She tells him she had one and that an infection developed and it had to be removed. She is scared to try it again and, as a matter of fact, is not sure she is even a candidate to have the procedure again. At some point, their attraction turns into lust and they become lovers - she is sure, however, that he will want to return to New York so, in the back of her mind their "fling" is temporary. She is sure she is in love with him but, because she can't see him staying in Amesport, she tries to keep him at arm's length. When she travels to New York for the exhibition, she goes to see a specialist in cochlear implants. This is the reason why I gave this book 4 stars. We learn that she has the money for the procedure, that she is a candidate, but it's as if the idea falls off the face of the earth. I kept waiting for her to have them and for the first voice she heard was that of Micah telling her he loved her. But alas, that was not to be. Therefore, I do not think this book finished as well as it could have. Having said all of that, understand that I will read all of this series again, when Ms. Scott has finished writing it - there are at least 2 more books, Julian's and Xander's. Congratulations Ms. Scott you have created yet another fascinating cast of characters.
