This book is filled with 31 stunning, bordered, illustrations, creatively showcasing elegant Peacocks as the focal point in each, some images are of a single Peacock with graceful, detailed, spectacular, tails, other images include several Peacocks. The backgrounds and sometimes the foregrounds include entangled, flowers, leaves, vines, and trees, or just a few strategically placed detailed, beautiful flowers in full bloom. Once you bring life to these images, with the combination of color and your own unique creative style, they will be worthy of framing. A perfect gift for college students, adults, some school aged children that love more detailed pictures and birds but especially Peacocks! 1. 31 Illustrations printed one per page (the back of each page is blank) on

heavy weight, bright white, perforated paper for easy page removal.2. All markers and some Gel pens leak through this paper, place two pages of scrap paper under the page you are coloring to prevent damaging the page under it.3. Full page, very detailed, bordered illustrations fill this book, the art work is flowing and the art style varies throughout the book.4. This book is perfect for Colored pencils or Markers: Gel pens or crayons could be used but some details are a bit small for crayons and some areas a bit large for Gel pens.5. The details in the images are complete, you won't start coloring a detail and suddenly it disappears and you are not sure what to do next. Tips:1. Outline flowers, leaves, larger areas in your illustration with a color a shade darker than the one you use to color them with, and even the edges of the flowers.2. If it is hard for you to distinguish your colors at night or in low light areas in your house when you try to color, purchase a Day Light bulb, this is a type of bulb that provides a brighter light and mimics daylight and colors are true.

This is the first colouring book I've ever bought and my first attempt at colouring. Incredibly detailed and complex designs. Good strong paper. Easy to remove sheets. This is an excellent colouring book and the potential for colouring design is enormous. I've uploaded a photo of my very first effort at colouring.

Any coloring book drawn by Marty Noble is always awesome. Nice clean lines and perfect details. Gorgeous swirling peacocks prancing across the pages. If you like to color this book is a must-have!

Again, Creative Haven and Marty Noble have inspired my creative juices to choose colors, markers and find the quality time to sit down for enjoyment and peacefulness. I am researching peacock feather colored pictures; their feathers have so many colors! This will continue to be a challenging book to capture the beautiful essence of the peacock. Many different styles of peacocks are depicted in different settings, then represented here in this book by Marty Noble's talents. Each page is very unique and beautiful to work. Peacocks surrounded by beautiful flowers, vines - but each beautiful bird calls out for our attentive colors and creative expertise. The particulars:~ 31 full size designs~ each design has it's dedicated page, no messing up the other side.~ 4 colored pages to inspire us~ perforated pages for easy removal~ good quality paper~ alcohol markers will bleed through, suggest personal use copying onto 60 lb. cover stock paper to reduce the amount of ink used~ good clear printing with no missing links or lines~ no repeats, each drawing is delightfully stunning and unique~ each page is blocked in with a frame surrounding the design Will love this book for a

long time.

What a beautiful book! This book is filled with 31 pages of beautiful birds and flowers! I love each and every page and can not wait to float away in my imagination with this book. I use Prismacolor pencils with it and it takes a few days to color each page for me because I have a baby or else it would take a lot less! Congrats on a beautiful book! I can't believe it's only 5\$!! It is worth alot more!

The designs themselves are attractive and perfect for coloring. They are printed clearly and evenly on one side with nice paper. I like Marty Noble's designs and now look for them specifically.

I've always loved peacocks and have purchased several cross stitch patterns to stitch. But none completely satisfy me so I'm working to find a picture I can adapt to needlework. Several of these pictures fit the bill. If I stitch one...I'll upload it into the images to the right.I LOVE the back cover--it gave me a good laugh. It starts:"Any peacock would be proud of these gorgeous designs to color."Not "any peacock lover" but any of the birds!! Now I'm picturing a peacock busily trying to grasp a crayon with its talons...or maybe with its beak?
