Customer Reviews

The Miracle Morning has long been one of my favorite books, and I followed it rigorously to get up early and get as much done as I could before everyone else. But anyone who has tried this system knows it isn't easy. It takes some planning and a commitment; you have to know why you are getting up early or else you'll just hit that snooze button everytime. I have always been a "night owl" too which goes against everything The Miracle Morning is about. But the problem with staying awake at night is that it proves to be the least productive in terms of energy. Our bodies and brains are shutting down. When this happens our default action is to watch TV, surf the Net or eat sugary food to prolong sleep and keep us awake. For writer's especially, the morning can be the BEST time of day to get your writing done. And that is what this book "The Miracle Morning for Writer's" is about. As a writer, the one thing that I have struggled with is the systematic routine to get those words written. I thought that just deciding to write at a certain time of day was enough, and that it would get done. But there were so many things stopping my success. I would wake up early with the best intentions and then, instead of writing, start checking email. Then reply to email. Then check Facebook. Then hit all my likes and make comments on all the posts I was following. Soon my Miracle Morning became my "get up and waste time" morning. This book is packed with so much useful knowledge and actionable content that, it is in and of itself, a course designed to get you [the writer] to take action on your writing and get your book finished. But this isn't just another book on "How to write a book". It provides writers with the inspiration, strategies and proven tactics to become productive, energetic, and how to earn an income as prolific writer. The Miracle Morning for Writers "Nuts and Bolts" MMFW introduces the LIFE S.A.V.E.R.S. strategies: 6 practices that blast your productivity right to the top each and every morning if you follow through. This is a powerful section with mind-blowing strategies that will definitely get you turned onto life every day. S.A.V.E.R.S. Stands for:- Silence- Affirmations- Visualization- Exercise- Reading- Scribing Steve Scott walks through each of these steps in the book, providing good examples of how best to apply the S.A.V.E.R.S. practices for maximum performance. Using these in combination for the first hour of the day is going to put you on top of your writing game. Chapter 4 dives onto the Writing Habit. As the authors discuss, building the writing habit and keeping it consistent is an obstacle for everyone. But we are given no-fluff actionable tasks and solid advice for getting writing done, even if it is only 500 words a day. As the "Miracle Morning For Writers" points out, and a tribute to Stephen Guise from Mini-Habits, it isn't the amount you write everyday but keeping with the consistency of the writing habit. Moving into the book further we are given powerful strategies for: Eliminating limiting beliefs about writing: Learn 6 strategies for getting rid of your beliefs holding you back from

writing. As artists, creatives or freelancer writers, we are often so worried about what people will think of our work that we forget it is a business too. In chapter 5 the authors show us how to start treating this as a job as much as it is a craft. The strategies shared are:- The writing routines of famous authors like Trollope who wrote 50 novels in his lifetime by sticking to a regimented schedule.- How to schedule time for writing: This section has great actionable strategies for organizing your writing routine, and the when, where and how much of writing. We also learn the importance of tracking writing and the various apps available for this.- Jerry Seinfeld's "Don't break the chain" habit and how to apply to your daily writing schedule to keep you on track.- How to increase your word count!- How to track your brilliant ideas! This chapter is crunched with a wealth of info. How to use Evernote [my favorite software] for gathering ideas and organizing them into sections and stacks.- Creating consistent content that readers love! In this chapter we are given specific strategies for engaging with readers and delivering what they love the most - valuable content!- Working with an editor and finalizing your final draft - you definitely have to read this part of the book if nothing else. My favorite part in MMFW is the Monetizing Your Writing section. In this part of the book Hal and Steve walk you through the various ways writers can make cash from writing: self publishing books, freelance writing, or the more traditional route with traditional publishing. There are so many useful links here that you can just click and start taking action towards whatever goal you have in mind. Finally we have the chapter on building an author platform: what a great way to finish off the book, by giving writers an extended powerhouse of links, detailed tasks and actionable steps they can implement to build an online [and offline] presence. I would have easily paid ten times as much for this book. The bottom line: The Miracle Morning for Writers is a wealthy funnel of serious actionable tasks easily compiled for convenience into one location. With just this book [and I've read many books on "How to succeed as a writer"] you can take your business from scratch and build it into something great that changes lives. [including your own!]. Getting back to the Miracle Morning section, it all begins with this. Since reading this book I am committed to rising early and putting the SAVERS routine into action. Then, with the rest of the content in this book following through and making it happen. A solid investment, the Miracle Morning for Writers is enough to put you on top of the game and come out a winner!

Not just a self-help book that you read and put on the shelf this is one you'll pull out and read several times. While there is some explanation of The Miracle Morning by Hal Elrod it is enough to help you follow this book. And if you've read the Miracle Morning it's a good refresher. What comes

after that is pure gold for writers. A book with a plan so you'll be a writer with a plan. I've read a lot of books on writing and how to be the best you can be but not like this one. A must read, no a must do for every writer who wants to succeed.

I'm one of the lucky ones is that I'm naturally a morning person and I love to write. But that doesn't mean that I never hit a slump and I was in a bad one. Reading this book helped to motivate me to get up early, with a purpose. It helped me to get back on track with my morning routine, and with my writing. I've always been a bit skeptical about affirmations, because they just seemed a bit too "woo woo" for me. But the affirmation examples in this book really resonated with me and so did the visualization examples. Another thing that I appreciated about the book were the examples of people who write consistently, including some who worked full-time jobs on top of writing. I loved those because they helped me to see that I don't have to choose between doing client work and publishing my own books. I really can have it all, and the Miracle Morning for Writers is what makes it all possible.

Can you believe, I used to feel guilt from not being an early morning riser. "The early bird gets the worm and early to bed, early to rise makes a man healthy, wealthy and wise" echoed in my head each day. Here I was, living a wormless and unhealthy, poor life, and it sucked. I looked around at early rising people and thought I wish I had their worms then I'd be happy. Each time I tried to get up early, I failed over and over. I mean how do these people do it. I found myself at the local Late Risers Anonymous group telling my woes of falling off the bed and trying to commit to waking up early. It really hit home when one day, when I picked up my kids in the wee morning hours and one of them squeaked with delight, from the backseat of the car, "Mommy, is that a sunrise?" I knew I had to figure this morning thing out, pronto. I started to wake up earlier by two hours and felt I was making some progress but I never liked it. I sure didn't get anything done. Mornings were hell and then I heard about The Morning Miracle for Writers. Are you living the writer's DREAM or nightmare? Just when you think the best was written, Team Elrod cranks out a GAME CHANGER for WRITERS. First, if you haven't read The Morning Miracle, do yourself a favor and get that book and then this one. The original Morning Miracle book by Hal Elrod rocked my NIGHT OWL world and gave me the steps to become a Successful Morning Person with some serious worm action. TMM for Writers goes far beyond the original book adding in Principles directly related to the writing field, including how to crank out writing consistently, learn to create relationships with your readers so they want your content, and more importantly...how to get

paid for your writing. Plus much, much more!!! Do you want to be successful? Duplicate what successful people do...~Laura Cullen blogger
