Customer Reviews

I have this and love it! The paper is nice and thick and all of the pages are numbered. Another reviewer didn't like the idea generation suggestions - personally they don't bother me at all. They are on every third sheet, but always on the left side page. The book has rounded corners so they don't get ragged looking. The cover is thick and sturdy but still flexible and the elastic is sturdy and won't lose its stretch as you use it. The bookmarks, back pocket, and DIY table of contents are very handy. The only negative is that it doesn't lay flat, but for me the thicker paper and greater number of pages makes it worth it.

I had really high expectations for this notebook because it seemed like it's really well designed, constructed, and is of high quality...I've mostly used moleskine's extra large blank notebook and I decided to try this one out because moleskine's pages are too thin for my liking so while this notebook has thicker pages, unfortunately, it does NOT lie flat.that's a HUGE inconvenience.I really wish it would lay flat because then it would get five stars.the little brainstorming tips in there can get annoying because there were more of it than I thought (that sounds helpful but in my opinion it

obstructed the blank page) and whether they are helpful or not is yet to be known. The construction is high quality, but the pages are too bright in my opinion. Another point for Moleskine is that the pages are off white, but these pages are too bright for my liking. I already opened the shrink wrap so I can't return it and I will try my best to love it. But I might have to switch back to a Moleskine after this notebook is finished.

I love this book and plan to purchase the other ones in the future. The 16 pages of references & exercises were very useful. Overall this book was extremely well made. I highly recommend it.
