Disney Villains: Delightfully Evil: The Creation • The Inspiration • The Fascination (Disney Editions Deluxe)

Synopsis

The greatest heroes must face the greatest villains. For decades, Walt Disney Animation and Pixar Animation Studios animated features have offered up some of the most iconic and malevolent villains. *Disney Villains: Delightfully Evil* showcases rare concept art and photographs and explores the villains' creative origins, roles within the stories, and influences on and within pop-culture. The deluxe package collects villains by themes such as vain, family, royalty, instincts, and more.

Customer Reviews

Although this book is beautifully designed and features some great pics, I expected more text on the "creation, inspiration, and fascination." In fact, this book includes very little text. AND half of it is on Pixar villains. Nothing on the book cover or listing indicated this. I was very disappointed by the space wasted on Pixar. No comparison to the Disney villains. If you want the definitive book on Disney Villains, find a copy of "The Disney Villain" by Hyperion books from 1993. GORGEOUS and featuring essays on each villain.

This book is outstanding, I have not yet finished it but its one of those books (for me anyway) that you'll find something new or missed in previous readings. The pages and the look of the pictures are high quality, each page contains a short bio on the character as well as who the voice actor, and a tidbit of information on the development of the character. Each section of the book is color coded down the long side of the page giving it a very nice look when reading and viewing it when closed.

This covers from Classic Disney up till today (Zootopia) I highly recommend this book for the Disney Book Collector!!

A "delightfully evil" roster of baddies varying in magical monsters to normal power-hungry humans. I love how it explains their motives and categorizes them. Especially useful with the villain spoiler chapter as some would not want to know their villainy until having seen the films. The only, small misgiving I have is that I wish it showed more incarnations of these villains in their inspirations or depicted in other films or TV. Such as comparisons of them from their character counterparts in ABC's "Once Upon a Time", Shere Khan and Kaa versions now shown in the live action/3-D Disney movie, the stepsister Anastasia's happily ever after, Hook's origins (seriously see Disney's "The Pirate Fairy"), or even other Disney sequel's villains (like Zira, Morgana, Sa'luk, etc.). No one knows that Mozenrath (from the Aladdin TV show) was scripted to be Aladdin's brother. Apparently it makes for a second volume in itself, dealing with all the lesser seen villains. Still, it holds a great amount of knowledge and concept work on the major antagonists throughout the Disney films.

I LOVE THIS BOOK! But then, maybe I'm just biased, cuz ever since I was a kid, I was drawn to villains, not just in Disney, but in superhero comics or bad guys in wrestling. I'm not bothered with the addition of Pixar villains as some are, but yes, the info in this book per villain is too short. The way they advertise it, it's as if one would expect paragraphs upon paragraphs, going totally in depth per villain. But alas, each are just a couple of sentences, with a good tidbit here and there. Still, it's a great read for Disney villain fans!!! Best villains for me by the way: Scar, Gaston and Jafar!!!
