# The Timeless Way Of Building

## Synopsis

The theory of architecture implicit in our world today, Christopher Alexander believes, is bankrupt. More and more people are aware that something is deeply wrong. Yet the power of present-day ideas is so great that many feel uncomfortable, even afraid, to say openly that they dislike what is happening, because they are afraid to seem foolish, afraid perhaps that they will be laughed at. Now, at last, there is a coherent theory which describes in modern terms an architecture as ancient as human society itself. The *Timeless Way of Building* is the introductory volume in the Center for Environmental Structure series, Christopher Alexander presents in it a new theory of architecture, building, and planning which has at its core that age-old process by which the people of a society have always pulled the order of their world from their own being. Alexander writes, "There is one timeless way of building. It is thousands of years old, and the same today as it has always been. The great traditional buildings of the past, the villages and tents and temples in which man feels at home, have always been made by people who were very close to the center of this way. And as you will see, this way will lead anyone who looks for it to buildings which are themselves as ancient in their form as the trees and hills, and as our faces are."

## Book Information

Series: Center for Environmental Structure (Book 1)

Hardcover: 552 pages

Publisher: Oxford University Press (1979)

Language: English

ISBN-10: 0195024028

ISBN-13: 978-0195024029

Product Dimensions: 8 x 1.2 x 5.7 inches

Shipping Weight: 1.4 pounds (View shipping rates and policies)

Average Customer Review: 4.7 out of 5 stars [See all reviews](#) (57 customer reviews)

Best Sellers Rank: #56,782 in Books (See Top 100 in Books) #13 in [Books > Engineering & Transportation > Engineering > Reference > Architecture > Study & Teaching](#) #19 in [Books > Arts & Photography > Architecture > Criticism](#) #28 in [Books > Arts & Photography > Architecture > Urban & Land Use Planning](#)

## Customer Reviews

I come to this book as a designer, as a technology professional, as a manager, and as a person who has always been interested in gaining an understanding of the patterns and systems governing

our universe. The book is organized into three sections, I'll summarize each of them for you. The Quality The author postulates a Quality without a Name. "The fact that this quality cannot be named does not mean that it is vague or imprecise... I shall try to show you now, why words can never capture it, by circling around it, through the medium of a half a dozen words." These words are "Alive" "Whole" "Comfortable" "Free" "Exact" "Egoless" "Eternal." The Quality is related to yet is none of those things. My take on this section is that this Quality Without a Name is very sort of touchy feely. It seems to boil down to trusting your emotions - if something feels good it is good. The Gate In the introduction the author says that there is only one way of building. "There is one timeless way of building... It is... powerful and fundamental... And there is no other way in which a building or a town which lives can possibly be made." The author states that because architects and city planners are removed from the community, unlike the way people once built things, that we've lost this way, this language. He then proposes a Pattern Language, which is the heart of the book (In my humble opinion). A Pattern is a way to identify, build, and share this precious way of making buildings and towns that are alive."...
