Wonderful complete alphabet choices. The only thing that would make it better would be if it were spiral bound. I took and cut mine apart and placed each page in a plastic sleeve.

It is JUST fonts, doesn't give nib measurements for even font writing or any tips at all. It is very pretty to look at and has a fair variety of fonts but if you are doing anything with calligraphy (which is
why I got it) definitely get an additional informative book along with it.

This book is really great as a reference and as a stencil tracer for words and names in different fonts. They are very clear and easy to copy. I recommend this book to every tattoo artist and want to be a tattoo artist.

I will use this font book for making and transferring words on clay pieces, then carve the clay lettering / numbers. There are so many different styles within this book, I will never be able to use them all, beautiful. Also I did not know whether it would contain numeric fonts, IT DOES IN ABOUT 99% OF THE STYLES. I am very, very happy with this book.

I was hoping for a calligraphy book...Gothic, Celtic, Unical scripts, etc. What I got was a book of various, extremely similar fonts--like a compilation of cursive pc fonts. My bad. I should have investigated further before purchasing.

I spend hours looking for a particular font-then I bought this book-amazingly-it was included-My Search Was Over. Unfortunately, although now I know the name, finding it as downloadable is been a challenge.

Pretty straightforward, it's a book with several styles of fonts. Can get the same thing for free by using Microsoft Word and changing fonts. At least then whatever needs written is spaced appropriately and can be printed and put directly to stencil. Front cover is exactly what's in the book. Just the style of font, the alphabet, and set of numbers on each page. OK reference though if computer unavailable.

It was exactly as I thought it would be and it came super fast! So I like to use it every day.
