Best Sellers Rank: #35 in Books > Literature & Fiction > Humor & Satire > Dark Humor #68 in Books > Science Fiction & Fantasy > Fantasy > Anthologies #726 in Books > Audible Audiobooks > Fantasy

Customer Reviews

As with all of Robert Bevan's stories, I get a genuine belly laugh every 2 or 3 pages. There's no "new author" stigma or ramp-up with these stories. From the first collection of short stories to this one, not excepting his Critical Failure novels, these are all professionally written, entertaining, practically typo-free roller coaster rides of hilarity. Be warned, these stories are not for the easily offended. There's swearing and blasphemy in profusion, and non-stop juvenile sexual and scatological jokes. But within the context of the D&D-style role playing game (RPG) setting, it plays and doesn't detract. Bevan's characterization is masterful. His plotting is devious. His dialogue is engaging. His story-flow and pacing is perfect. Setting the childish humor aside, he has genuine situational humor in abundance too, that plays to more intellectual sensibilities. He gets his characters into bad situations and ingeniously gets them out in fun and "believable" ways. Some of the stories rely heavily on stereotypes, but the whole Caverns & Creatures setting is an imaginary role-playing game, so stereotypes are to be expected. He borrows in Cornholed from the antebellum South, and from Dickens in Cooper's Christmas Carol. Always a new surprise to keep the reader on his/her feet. My only regret is that, having read 12 short stories and 2 novels, now I have to wait for

him to finish his 3rd novel.

After losing a relative and dealing with that sadness, I downloaded this book on a whim. It really did warm my nerdy little heart. Such a good time. Highly recommended for someone who wants some silly in their life. Seriously, it was like traveling back in time. So happy that I gave this a whirl.

I won't bore you with details about the stories as others have already done it. I always recommend you read the first book in this series so you can fully appreciate the stories in the collections but these stories will stand alone. The cavern and creature series is quirky, dumb, juvenile, contains jokes about every bodily function, uncouth, disrespectful to all but most important pee your pants funny. I feel like a rebel with the love I feel for the series(I'm a middle aged woman for goodness sake where is my propriety?) My advice is to try out Cavern and Creatures immediately(at least try a free sample) and see if you like it.

More of the same...which is not a bad thing. If you've read D6 then you know what to expect. The continued frustration of these stories is that the players don't advance in motivation or just leveling up (like they do in Critical Failures 1 to 3, the main series). But then again they can't since these short stories have to fit in the CF 1-3 time line. I also miss Chaz and Kat, but understand why they can't be included. If you are looking to continue mining that vein of irreverent fun, then you won't regret buying 2D6. I am on to 3D6!!!

If you love a great fart joke, and are interested in Dungeons and Dragons then this is the series for you. Robert Bevan has written some of the funniest stories that I have ever read. This is a collection of short stories based off characters from his 4 (so far) full length books about Cooper the half orc and his friends. Each story is funnier than the last. Great reads, all of them are highly recommended.

The Caverns and Creatures gang is back in a 2nd collection of short stories. More adventures of Julian, Cooper, Tim and Dave. I liked 2d6 more than I liked d6. The stories are pretty much all good for a few laughs. 4/5

2d6 is the perfect book for lunch breaks and small waits, just like its predecessor, d6. With short, fast-paced action and quick, to-the-point humor, 2d6 packs all the fun of Critical Failures in a

one-inch punch. Or six of them, to be honest.

These six novellas are great for anyone who has ever sat down and played a role playing game with their irreverant friends. Four friends magically transported and trapped in a role playing game world who still play the game as if they were sitting at home beers in hand. The stories are funny and true to the kinds of wacky adventures and personalities different people bring to the table. Even if you don't like Role playing games I urge you to give these books a try. For more background on how the players got stuck in the game make sure you read the Critical Failures set of novels on kindle! Great fun!
