I'll admit I'm a cusser. I cuss like a sailor, but I'm one of the nicest people you'll meet and I'm respectful when I do cuss. But it is who I am, love me or leave me. Accept me or don't. I'm one of those who love to color too. I was flipping through to see what new coloring books they had for adults and when I came across this one I instantly fell in love. I love this book. It's my soul book lol. It combined my love for drawing and bad words AND animals and just took my heart away. It's an amazing book, fun to color and make you smile. Especially when you say every word or phrase in the book already. It's like it knows you. Lol. Every design is intricate and fun. All drawings fit perfectly with their sayings and just makes you giggling. You can't help but have a smile on your face when you're coloring these pages. Paper is great quality, no bleeding through if you use gel pens or markers. One thing I would suggest is having easy to tear out pages but other than that, this coloring book rocks!

LOVE this book. I love how Thiago combined 3 of his books together to create one larger book. I am a cat fanatic & love my dog as well. (have 3 cats & a dog) and my sis in law loves owls. So this is something we can definitely pull out when we have a family coloring night. I love the phrases and that all his artwork is hand drawn! His designs are unique and you won't find anything like them anywhere else. My only dislike on this book is that it doesn't come with the PDF file as most of the other books do. I don't like to color in the books because I LOVE to show em off to everyone & have a good laugh. I'm always so afraid to mess em up & then I can't go back & redo it. Oh well, for the price I can't complain too much. Definitely worth it. SOO in love with all of Thiago's work.

This is one of the best adult coloring books out there. Thiago is a talented artist and the adult phrases in conjunction with the art made me feel amused as I colored. Very relaxing and a fun book to color. The illustrations are printed on one side and on good quality paper. I'm definitely going to have purchase more copies so I can try out some different colors and I have a couple people in mind to gift this to who would love this edition of his work.

This book has big, more simplistic drawings. If you're looking for bigger, swear pics, this a book for you. The drawings are a little too, "kid-ish", for me. The pages are not perforated. You will need to place, a couple sheets of paper, or a piece of card stock between the pages if you are a marker colorist. Marker does bleed though.

I love the idea of coloring books with swear words. This is the first sweary book I bought. I admit I bought it for the owls. The designs are pretty cheesy especially the cats and dogs and not necessarily in a good way either. The designs look like no thought were put into them. The owl designs are better than the cats and dogs. Another flaw is that you really can't remove the pages from the book. Markers do bleed a bit through the paper but it isn't too bad. I find myself enjoying more complicated designs than the ones found in this book. Not a great book but not a bad one either. At least it is a good way to kill time on a rainy day.

I purchased 2 of these Cluster.... Coloring books (so far) one for myself and one for my mother for her birthday as a stress reliever from her job. She laughed until she cried. As we have always said her dad made swearing an art form and now she has them in art form. Each of the swears are accompanied by cute and simplistic animal reminiscent of children's coloring books. The words are

all for Adult kids at heart with a case of "potty mouth" or may have humorous memories of some one who did.~The book is full size~The pictures are one-sided~Paper quality is basic copier style paperMy sharpies and Bic Mark-it's bled heavily all the way through leaving a watercolor effect mirror image on the back . I would recommend cardboard or two pieces of heavy duty construction paper to protect the other pages as you color. I have a few other people in mind that I will most likely buy this for. I would recommend this book to others.

Being an avid colorist that started this past summer, and I fell into hook line and sinker; I have collected a variety of coloring books, different types of mediums (pencils, pens, markers) ways to keep them all organized. I am learning my style, new techniques and what I enjoy coloring; which at the moment is pretty much most anything, although some of the finer detail areas have to wait for days my wrists or eyes aren't bothering me; and having a magnifying glass also helps too. There is such a wide variety of coloring books out there for adults; if you are looking for something to help de-stress, to help cope maybe with different medical issues you maybe facing or whatever, don't be afraid, just jump on it there and give it a shot; I am sure you will find something that will suit your fancy and they even have coloring books for men too. A lot of these artists have GREAT talent, and it surely shows when you flip through these pages. So, what are you waiting for? Pick up a coloring pencil, kick up your feet, sit back and relax and color yourself a great picture!!!
