Customer Reviews

I was hoping for another book of songs to play solo, but most of these are duets. And the solos are fairly advanced pieces of music. I was looking for some new songs to add to my repertoire. I'll find them elsewhere.

I was expecting the songs to be easy, but honestly the songs were quite a bit too easy. Melodies are simplified and "dumbed down." There are some decent song choices, but this book really isn't going to challenge a beginner very much.

easy songs even a 50 year old beginner like me can play and enjoy, making learning to play the mandolin more fun

I have a soft spot for Rich DelGrosso's Mandolin Method, but this book is a letdown. The book is short (about 34 pages) and the melodies on the simple side. I know it says "easy" in the title, but this is ridiculous. I thought it was a companion volume to his method, but in fact you could go completely

to the end of this book after doing only about 40% of his method. The one plus I can say is that they did the accompanying CD right: the mandolin on the left track, the mandolin accompaniment on the right, without the channels being mixed together or there being any other decorative distraction on the CD. If you buy it, make sure you're getting the edition with the CD. They also sell just the book alone.

Pretty simple to understand, but I wish the authors would work more with the Nashville number system for explanations, it would work a lil' better.

No tab or chord charts. A total waste.

No tabs. Songs aren't complete and way too simplified. And, especially... NO LYRICS. It's confusing as to where in the song one is playing. Book is useless !!

This was purchased as a gift. It was a nice addition to their collection. It was well received by recipient
