Customer Reviews

This is a great book. I almost didn't buy it because the description said it is written in "Melodic Style", which is incorrect. The songs are written with just the melody line, (single notes) and then again in Three Finger Style, which is often referred to as Scruggs style. By playing the melody line you can incorporate your own rolls and technique, such as slides, pull offs and hammer ons. It gives you the opportunity to be as creative or as simple as you like. If you like having fun with the banjo it's a great book. I'm glad I have it in my collection.

Am teaching myself banjo and need easy books. This series is great, simple and everything is right there for you. Don't have to make up your own notes. Again, real happy with it!

This book is great for a beginner. Easy. Beginners have such limited abilities it is easy to get bored.

This perks things up while you practice skills.

Love this book, Just wish the songs had a cd with the book. But overall the book has easy songs that are easy to learn

While meant to accompany Hal Leonard series, I am using it and its follow-on book to accompany the Mel Bay / Janet Davis book that I am working through.

Take your time, practice these measure by measure and before long you'll be picking these songs.

A good starter book.

great book
