Adult Coloring Books: Dare Dragons: Stress Relieving Dragon Designs!

Synopsis

This adult coloring book contains hand-drawn doodle style designs featuring detailed images of Dragons to color, with Variety for both the color and Tattoo Enthusiast. The twenty-two designs are of various difficulty levels and the images are printed on the fronts of pages only, so you don't need to worry about bleed-through if you choose to use markers. Customer Reviews

I wish more pictures of this were available when I bought this. The front and back cover are sadly the best parts about this book. Skip this one and get something else.

I received this book as a gift. I love dragons and that is why I cherish the Game of Thrones Series. This coloring book is for more advanced artists. I bought it for my 12 year old not realizing how detailed the areas are to color but he can still color it, just not as well as he would like. There are about Twenty-Two Dragons to Color, Every Design is Unique and the paper quality is Good. Highly Recommended to All Those who love to color Dragons.

I was disappointed when I got this book. The pages are not full pictures. There are just a dragon to color. No background. Some of the dragons look like sketches. The pic on the back is not even in the book. I was not able to view the inside of the book before I bought it so I was under the

impression the back cover was a taste of what was inside. Not true at all. If it would have cost any more than what it did I would send it back.

These are very nice pictures of dragons. Some are easy to color, others more difficult. I would have given it 5 stars if not for the fact that the back cover picture - the reason I ordered the book - is not in there. Before buying any of the adult coloring books I always try to see some of the pictures. Nevertheless, I do recommend it for the other neat dragon designs.

I LOVE dragons - I have a full back Chinese dragon tattoo for crying out loud! I got a dragon coloring book from my mother-in-law for Christmas and I've really enjoyed it. So, I bought a few more, assuming they would be similar to the other adult coloring books I have. It is NOT. Most of the pages I find ... 'un-color-able'. There's so much black in a lot that there's almost nothing to do. Though, if you did color it, I doubt you'd still be able to 'see' the image. Other pages are truly sketches, ones that are not ready to be colored, and have a very awkward feel. There are also a lot of pages that do not have ANY dragon - dinosaurs, 'Mer-mares', tigers, snakes, etc.. The image on the front of the book is in the book, and is probably the most 'colorable' image. As many others here have said, the image on the back (which is also a sketch, just colored) does not appear in the book. I should have looked at it more when I received it, I may have been able to return it. If you want to color dragons, don't buy this book. So disappointing.

The picture on the front and the drawing on the back lead you to believe there is more of a quality of art work and variety. There are a few Japanese tattoo style pictures and Dinosaurs. There are not any drawings of the medieval dragon and the cloaked person on the back of the book. There are not any drawing of that sophistication in this book what so ever. I was extremely disappointed for how much this book is costing. In no way is this book worth what they are selling it for. Pretty disappointed

Most of the pictures have too much black in them. One or two are perfect so the artist does know how to make a picture to color. I had intended this book as a birthday present for my sister, but I will give it to her only if I can't find another quickly and then with many apologies.

So far I am loving this book!
