## Customer Reviews

Completely satisfied with reference book. Actually text book for LSU classes. Constantly use it with my retail nursery and landscaping business. Information and artwork are outstanding. Worthwhile investment for any plant lover in south Louisiana.

I am in a Garden Club and this book will be very helpful identifying plants that some members bring in when we have our flower show. We have horticulture talks and bring in flowers to our meetings. Some times members don't know the name of their plants or flowers.

This book is a great resource every Southern gardener should have in their personal library.

Great book. Great for identifying plants. I used this book to help me to decide what plants to use in

my landscape

The descriptions are easy to read with enough information to decide if the plant will suit one's garden. This book helped the decision about which plants would be successful to plant in Atlanta.
