## Customer Reviews

My sister was really stressed out before her wedding and knowing she loved coloring books I got her this. Well, she loved it! She cried when I gave it to her and sent me this image later that day

saying what a nice way to unwind it was.

I received an electronic copy of this coloring book via the Early Reader's program at LibraryThing.com in exchange for an honest review. I really like the drawings in this book! The pictures are included in order, beginning with the proposal and ending with the honeymoon. They're very beautiful, extremely detailed and very multicultural! I also like that the settings vary: a proposal in Paris, exotic honeymoons near the ocean, various garden settings, as well as a few pictures indoors. Lastly, I like that the focus shifts from bride to groom to the bridal party and to the other aspects of the wedding (like the cake, the flowers, a fully arranged table, the food, the rings, etc); it provides a wholesome perspective of everything. I would definitely recommend this to everyone who enjoys colouring. This would make a great engagement present. My thanks go out to Bonnie Bright at Lightspace Media for this lovely prize!

This is a truly beautiful coloring book of wedding themed art! Captured on these pages are wonderful pictures of several wedding themed scenes! and different ethnicity too! I beautiful Asian bride in her traditional costume, Beautiful Henna art work etc! I received an ARC PDF copy of this book for an honest review, so can not comment on paper quality etc... but loved that I could print the pic I wanted to work with, and to be able to have a completely flat surface to work with! I think this would make a great gift for bridesmaids! Looking forward to more from this artist! The picture attached is done with Tombow markers. Will update with another picture i'm working on later!

I received an electronic copy of this book as part of a read and review program and was asked to provide an honest review. The images in this book are stunning! I honestly can not wait to color the bride on the swing especially. Color Me Wed covers the bridal journey from proposal to the honeymoon and in the middle features some beautiful brides in equally fantastic gowns! Any stressed out bride to be, or even a fashion minded person would love to add this coloring book to their collection. Trust me with all the flowers, dresses and romantic images this book you will be falling in love with it!

I was able to review Color Me Wed in digital form. The pictures are beautiful! It almost reminds me of a happy Barbie book in wedding form. The details are nice in the pictures, and lots of pictures without repetition. It could also give a bride ideas on what to actually wear for her own wedding. The colored pictures could be even incorporated into the wedding program or bridal activities. Everyone

loves to color! I even see this book appealing to young girls wishing of that day, or romantics at heart using color therapy as a way to create happiness and dream. I would definitely recommend this coloring book!

A perfect color book for any bridal shower! A wonderful time of a woman's life is preparing for her wedding. It is also one of the most stressful. Having the bride take a moment every now and then to color and de-stress is a huge help. I recommend giving this as a gift to a bride and groom as soon as you hear about the engagement.

I received a PDF download of this for review, so I can't comment on the quality of the paper or binding. Color Me Wed is an adult colouring book based on a theme of weddings. I have many friends and family members who are enjoying this new trend in adult colouring books and was looking forward to reviewing one. When I first agreed to review a wedding themed colouring book, I was a bit concerned that a book of bridal pictures would be mostly white and not much fun to colour. While there are quite a few pictures of brides, they include enough decorations and decor to be colourful. There are also weddings of different ethnic backgrounds, which could include bright, vivid colours. Other pictures include flower girls and wedding cakes and decor. Some of the drawings are in a Japanese anime style, which is not to everyone's taste. A few of these, and some others, I found a bit unsophisticated and even juvenile. But overall, this would be a fun gift for a bride who enjoys colouring or as a bridesmaid's gift from a bride.

Really liked this coloring book and think girls will have fun planning their dream weddings using these wonderful designs. Nice designs, the only thing stopping Color Me Wed from getting five stars are the designs with very tiny coloring spaces. Can't be the only one who may need a magnifying glass to color the designs with these spaces. I use markers and some gel pens, but even those don't have points small enough to use here. Love the idea of this coloring book and the designs are top notch, except for those little lines. Received a digital copy of Color Me Wed via the Early Reader program from librarything.com in exchange for an honest review.
