I returned it. The art is simply a collection of miscellaneous images from Sutterstock, an online image company. Penny Farthing Graphics (one person who is not the creator of any of these drawings) had them assembled into a book, as though it was her own work. If that wasn't bad enough, the book is printed on the cheapest possible paper that I have ever seen in any coloring books. Even children's coloring books have better paper. You could not use pencils without puncturing this 'newspaper grade' stock, and markers would bleed out in all directions. Crayons might work, but that is all.
