Moroccan Interiors (Interiors (Taschen))

Synopsis

This book explores contemporary interiors in the sun-soaked land that stretches from the Sahara to the Mediterranean: Morocco. The diversity is breathtaking: the rural pise architecture of the south is a far cry from the Hispano-Mooresque ornamental beauty of the imperial cities. Moroccan interiors are as endlessly varied as the country itself, from the restored palaces in the medina of Marrakesh (where aesthetes of the international set now live) to humble troglodyte fishermen's homes at Sidi Moussa d'Aglou. The colorful palette of this country and the light there itself suffuse these very different homes with a vitality that is as distinctive to modern Morocco as it is a reflection of contemporary trends in decor worldwide. --This text refers to an out of print or unavailable edition of this title.

Book Information

Series: Interiors (Taschen)

Hardcover: 320 pages

Publisher: Taschen (June 1995)

Language: English

ISBN-10: 3822881775

ISBN-13: 978-3822881774

Product Dimensions: 10 x 1.2 x 12.9 inches

Shipping Weight: 4.9 pounds

Average Customer Review: 4.4 out of 5 stars [See all reviews](#) (7 customer reviews)

Customer Reviews

The first time I saw this book I couldn't stop looking at it. I was entirely engrossed with the beauty of the interiors, the use of color, texture and interior architecture in these homes. In a word...MESMERIZED! I should say that the interior design in this book is not my 'style'. It doesn't matter in the least. I have integrated, and plan to integrate, many of the ideas into my own home (Colonial - which couldn't be more different) and have, and will, simply do it in my own way. To add to my point I have shown this book to my mother-in-law who is extremely traditional and conservative in her tastes and she was delighted and inspired. I showed it to my sister, who's taste

run to the super modern Italian leather look, and she loved it and plans to use some of the ideas for color in her own home. I showed this to another friend who's tastes are essentially 'the cottage look' (she is very good at it) and she was thrilled with the wealth of ideas she obtained. This book can be used as the ultimate coffee table book or the launching pad for new ideas for decorating your own home. Opening this book is like entering a dream world, where magic and graceful living really do exist.

Moroccan interiors sets a new standard in photography and explores the interiors of Moroccan homes. As a fan of Morocco, with its breathtaking colors, fabrics, and designs this is a marvellous companion when returning home. The book mirrors the vivid Moroccan heritage and gives ideas for home decoration. You will love the marvellous pictures and the variety of Moroccan styles with its by French and Spanish influence.

I would like to add to my previous review some more practical notes on the contents of the book. The book is separated into different regions and cities of Morocco and almost all the homes featured are renovations of delightful, but previously run down, Moroccan palaces and estates. In all but one home the owners are Europeans who have settled, or reside much of the year, in Morocco. This is important because, until recently, the Moroccans themselves weren't much interested in preserving their architectural history, preferring to knock down old buildings and replace them with new ones. Neither were they much interested in preserving their own style. The Europeans however were devoted to preserving both and created a movement, over time, within the country for Moroccans to begin to do the same. Each home featured reveals the owners deep love for Morocco and for its history. The photographs are lush and beautiful, and the wealth of ideas for interior design and architecture are matched by few books available today.

Preservation or desecration of certain architectural styles and decorative heritage goes in and out of fashion the world over. It's not only Morocco that wanted to demolish the old and over-value the new. How much of the beauty and culture of the East has been lost in the name of "progress"? The situation is not simple, however. In the latter part of the 20th century there was an urgent need throughout the Mediterranean for affordable, modern housing for quickly expanding populations and growing economies strapped for cash, skills and resources. Unfortunately aesthetics and the traditions of artisans often got trampled in the rush. Lisa Lovett-Smith's sumptuous *Moroccan Interiors* reminds us that embracing preservation has so much to offer the present and the future.

While she focuses on the homes of the rich, ex-patriate and famous and could therefore be accused of being elitist, she also illuminates the beauty of the simplest of objects that could be found in any home, rich or poor. Lovett-Smith has divided Morocco into regions and cities and celebrated the best of each, appreciating the exquisite, ornate beauty of Islamic art and the colour schemes reflecting the dramatic terrain of the Mediterranean: desert ochre and blistering reds, turquoise, azure, sapphire, gold, saffron and cinnamon to name a few. Lovett-Smith is aware that a picture tells a thousand words and her accompanying text in several languages is brief. The photography is faultless and the lighting of the interiors unobtrusive. This is not just an ornate coffee table book. It is a valuable archive, a celebration of great style and a treasure trove of inspiration for interior architects, artists and designers.
