They Poured Fire On Us From The Sky: The True Story Of Three Lost Boys From Sudan

Synopsis

A captivating memoir of Sudan and a powerful portrait of war as seen through the eyes of children Benjamin, Alepho and Benson were raised among the Dinka tribe of Sudan. Their world was an insulated, close-knit community of grass-roofed cottages, cattle herders and tribal councils. The lions and pythons that prowled beyond the village fences were the greatest threat they knew. All that changed the night the government-armed Murahiliin began attacking their villages. Amid the chaos, screams, conflagration and gunfire, five-year-old Benson and seven-year-old Benjamin fled into the dark night. Two years later, Aleph aged seven, was forced to do the same. Across the Southern Sudan over the next five years, thousands of other boys did likewise, joining the stream of child refugees that became known as the Lost Boys. Their journey would take them over one thousand miles across a war-ravaged country, through landmine-sown paths, crocodile-infested waters and grotesque extremes of hunger, thirst and disease. The refugee camps they eventually filtered through offered little respite from the brutality they were fleeing. In *They Poured Fire on Us from the Sky*, Alephy, Benson and Benjamin by turn, recount their experiences along this unthinkable journey. They vividly recall the family, friends and tribal world they left far behind them and their desperate efforts to keep track of one another. This is a captivating memoir of Sudan and a powerful portrait of war as seen through the eyes of children. And it is, in the end, an inspiring and unforgettable tribute to the tenacity of even the youngest human spirits.

In a land where family life was everything and the most fearsome thing was a prowling hyena or

lion, fire suddenly exploded from the sky. THEY POURED FIRE ON US FROM THE SKY is the vivid description of the war in southern Sudan as seen through the eyes of three little boys, Benson, Benjamin and Alephonsion - who suddenly became homeless orphans and were forced to trek across Sudan to Kenya and Ethiopia without food or water. No longer having a father to frighten away the animals or a mother to prepare food, these five-year-old boys had to figure out how to survive. In addition to the horrors brought on by nature in the form of heat, no water, no food, hunting animals, biting snakes and insects, they soon discovered that people were not very nice to boys traveling alone. Frequently their food, clothing and blankets were taken from them or they were beaten and driven away. Even their own soldiers mistreated them and they found that after surviving so much and traveling so far, they were not exactly welcome in Kenya or Ethiopia. But survive they did to come to the United States to begin life anew. This gut-wrenching book is a real page-turner and I found myself unable to put it down, even when the stories brought tears and indescribable anger. It was a real eye-opener to read of United Nations aid gone astray as locals took the best for themselves and left the refugees starving. There were, of course, the good people who helped the refugees with food and transportation and even lost their jobs because of it. If you never believed that war could change ordinary people into selfish monsters, then this is the book for you.
