## Customer Reviews

LOVE THIS BOOK!!! I've been a Madonna fan since she first came out; and I have to say this book is a MUST HAVE!! It begins with her childhood and ends in early 2014. The book is easy to read; Writing on one page and a corresponding photo on the other. Most of these photos I've never seen before (and I thought I seen them all). Overall, the book gives wonderful and unique insights on Madonna as a person, performer, artist, mother, daughter, lover, and wife. It shows the highs and lows of her career and personal life. I must say, this book is truly amazing. The author really did her homework when researching about this amazing woman. It's definitely a collector's item for any Madonna Fan!

Despite the one negative review on here I'm really enjoying the book. It is stunning literature? No. But it's not meant to be. It's also not a trashy "tell all." It's a beautiful compilation of photos over the

course of Madonna's life and career. And, I did find out a few things about The Queen that I never knew. Enjoy this book on its merits; which is beautiful images thoughtfully laid out to document a life and a career.

As a long time Madonna fan AND a collector of a lot of books on her, I have to say I was waiting with anticipation on this book. It did not disappoint! The photos that were selected show the scope of Madonna's career from her very early days in NYC to today. The text that accompanies each photo is a detail of that photo and of that time in her career. The book is one that can be read in several sittings or can be scanned through and read without missing any details. Michelle Morgan approached this book as a fan and as a professional writer. Both of which are evident. I have thoroughly enjoyed this book and have already ordered extra for holiday gifts.

I absolutely love this book! When the author used mammoth for the title, she was not kidding. The book is filled with gorgeous pictures spanning from Madonna's early years to her latest endeavors. There are pictures I haven't seen, and others that I have. I have learned more about Madonna by reading the text that goes along with the pictures. If you're a true Madonna fan, you need this book in your life!

I love this book!!! It's such a good book with beautiful pictures and great text to them! I've read a couple of other Madonna books, but this one is one of my favorites! A must have for Madonna fans! :)

Unique & amazing tribute to the Queen of Pop. This belongs on the shelf of every Madonna fan & admirer. Get one while you can as I know they are flying off the shelves & getting a lot of attention.

I am halfway through this book and enjoying it thoroughly, I love all the pictures throughout the book (some that I haven't seen before). The book is a must have for any Madonna collector. Michelle Morgan has sure done a good job of putting this book together I would highly recommend and collector to have this in their collection!!

This book about Madonna is the best one out there. It covers her career well, has great photography, and lacks the bias of other Madonna books that just look for "scoop". Highly

recommended.
