Sit back and relax. Choose your letter. Spot all the little doodles - and colour your way to happiness with Squidoodle's Book of Fancy Letters - An Alphabetical Adult Coloring Adventure by Steve Turner. This book contains all the letters of the alphabet, A-Z, with extra bonus symbols at the end. All 26 letters of the alphabet, on single side pages with doodles items to color in. Taken from the intricate hand drawn pen drawings of Steve Turner a.k.a Squidoodle. Each letter is detailed and ornate, with doodled items beginning with that letter. Try and spot as many as you can! As well as the 26 letters of the alphabet there are four added symbols - & + = and a heart. Each letter sits centrally on the page, away from the spine - you can cut the letters out, color them and give them as gifts to family or friends. After all the full page illustrations I have also included every single letter and symbol again, in half size, two to a page, for you to cut out, colour and give to friends and family. As if that wasn't enough, there is a bonus code at the back of the book for you to receive a FREE name in doodle letters, straight to your inbox! So the fun never ends. All the pages inside this book are taken from the hand drawn illustrations by Steve Squidoodle Turner. I carefully selected items to be contained in each letter - making it fun for kids and adults alike. The A contains an astronaut, an apple, an aeroplane, an anchor.... The B contains a bee, Big Ben, a beetle, balloons.... you get the idea!!

Customer Reviews

Note: The supplier kindly sent me a review sample for evaluation, the opinions expressed here are entirely my own. I love adult colouring books is perfect if you enjoy colouring in detailed and small spaces. I prefer colouring in complicated pictures that take ages to complete. This is nice because you can start and leave it or in most cases I get glued to it and don't want to stop until I have finished. It allows you to be creative even if you are not naturally artistic, it will bring out your creative side. I like matching the colours to use in these alphabet shapes. The fun thing is you can use loads of different colours and it just keeps looking better and better. With some colouring images you need to stick to 3 or 4 colours or it starts looking messy and complicated whereas with the alphabet drawings you can start by colouring in the leaves or a particular item that is repeated on the letter and then go from there. There are many different techniques and ideas for how to colour in but in my opinion you should just go with the flow and see where you land up. You can never make a mistake. I prefer using copic markers because the results are very bright intense shades but then there are many different ways to colour in and so much choice, coloured pencils are always great too. A word of caution if you are thinking of using alcohol markers, they will bleed through to the other side of the page so you would need to put a piece of cardboard there to stop it leaking on to the next page. The pages are not perforated so you would need to carefully tear the page out. In total there are 2 x 26 alphabet letters from A - Z and at the back of the book there are 4 small symbols that are added to the book.
