## Firefight: The Reckoners, Book 2

## Synopsis

Brandon Sanderson, the number one New York Times best-selling author of *Words of Radiance*, co-author of Robert Jordan's *Wheel of Time* series, and creator of the internationally best-selling *Mistborn Trilogy*, presents the second book in the *Reckoners* series: *Firefight*, the sequel to the #1 best seller *Steelheart*. Newcago is free. They told David it was impossible, that even the *Reckoners* had never killed a High Epic. Yet *Steelheart* - invincible, immortal, unconquerable - is dead. And he died by David's hand. Eliminating *Steelheart* was supposed to make life simpler. Instead, it only made David realize he has questions. Big ones. And no one in Newcago can give him answers. Babylon Restored, the city formerly known as the borough of Manhattan, has possibilities, though. Ruled by the mysterious High Epic Regalia, Babylon Restored is flooded and miserable, but David is sure it's the path that will lead him to what he needs to find. Entering a city oppressed by a High Epic despot is risky, but David's willing to take the gamble. Because killing *Steelheart* left a hole in David's heart. A hole where his thirst for vengeance once lived. Somehow, he filled that hole with another Epic - *Firefight*. And now he will go on a quest darker and even more dangerous than the fight against *Steelheart* to find her, and to get his answers.

## Book Information

Audible Audio Edition

Listening Length: 11 hours and 39 minutes

Program Type: Audiobook

Version: Unabridged

Publisher: Audible Studios

Audible.com Release Date: January 6, 2015

Best Sellers Rank: #10 in Books > Teens > Literature & Fiction > Boys & Men #31 in Books >

Audible Audiobooks > Children's Books > Science Fiction & Fantasy #35 in Books > Teens >

Science Fiction & Fantasy > Science Fiction > Dystopian

## Customer Reviews

THIS. BOOK. IS. BRILLIANT. I first discovered Brandon Sanderson when I was poking around and found *Steelheart*, shortly after it was released. I immediately fell in love (with his writing style...not him) and went back to read most of his other books. *Elantris*, *Mistborn*, *Warbreaker*, *Stormlight*

Archive, The Rithmatist, Legion...they're all amazing. As I've been reading through Sanderson's work, I've noticed that if you number his books in chronological order, each one is significantly better than the last. Most authors maintain a similar level of quality throughout all (or at least most) of their work, but Sanderson is always improving. With each book he writes, he gets better and better. Luckily, this streak has carried on and applies to Firefight. As of the time I'm writing this, Firefight is Sanderson's latest, and therefore most skilled, piece of work. I read Steelheart when it came out over a year ago, and I went back to reread it shortly before Firefight was released. I actually finished reading Steelheart just a couple of hours before midnight, when Firefight was officially available for purchase. (I had preordered it on my Kindle, so I got it exactly at midnight.) I started reading Firefight immediately, and I was very surprised at how much Sanderson has improved in just one year. Reading Steelheart and Firefight back-to-back like that, it's very easy to see exactly how much Sanderson's writing has improved. It's hard to explain exactly WHAT Sanderson did to make Firefight so much better, but there IS a distinct improvement.

5 Stars! Sparks! This book is amazing! I could go on and on about how much I loved this book (and probably will in this review). I am fairly new to Brandon Sanderson, having just read the first book in this series, Steelheart, not quite a month ago. My friends on Goodreads have talked about having an ailment called Sandersonitis and I am afraid that I may have caught the bug because I cannot get enough of this stuff. I love the idea of this series. I grew up on superheroes. For a short time, I think I wanted to be Wonder Woman when I grew up (I kind of still do to be honest). The television shows that I watched revolved around superheroes: Wonder Woman, The Incredible Hulk, The Six Million Dollar Man, The Bionic Woman, not to mention cartoons every Saturday morning. I had a Wonder Woman barbie and often paraded around the house in my Wonder Woman Underoos. When my cousins were around, we often stopped all kinds of trouble in our superhero underwear gang. As you may imagine, I was instantly drawn to this series. Epics with superhero powers but with a twist because these are not the save the day kind of superhero at all. These guys can ruin your best day and do so without a lot of thought and nobody brave enough to stop them except the Reckoners. David is a member of the Reckoners. A group that works to destroy dangerous Epics. This book starts with a bang. I don't think that this prolog was quite as good as the one in Steelheart but it was excellent. Each Epic has a highly guarded weakness which is the key to their assassination. David has spent his life learning about these Epics and is very good at finding their weaknesses.

If you're smart, and you've already read Steelheart, CONGRATULATIONS: Here's an easy test for you to see if you should read this sequel: Did you like Steelheart at all? No, seriously, like, AT ALL. A little, OMG SO MUCH, whatever? ...Yes, you did? Well, then, there's no question: You need Firefight in your life. Immediately. Really, that's all you need to know. (And if you haven't read Steelheart, why are you here?! Go read that book!) But read on if you want more information about Firefight. This review is spoiler-free! ;)The Reckoners series reminds me of what I imagine a superhero comic book would be like (confession: I have never read a comic book... or a graphic novel... please don't kill me...). But seriously. It's super fun, vibrant and cinematic, absolutely action-packed, a bit lighthearted, but also full of heart... It makes me think of movies like "The Avengers," except the superheroes are all bad guys and the little humans get to be the heroes. I mean, sometimes in movies like that, the heroes are a little over-the-top idealistic, but we forgive them, don't we? Because we want to root for them, we want them to vanquish their foes, we want them to save the world amidst these epic circumstances... Yeah, Firefight is like THAT. Carrying straight over from the end of Steelheart (or rather, the end of Mitosis... seriously, you should read Mitosis, it's a great gap-bridger), Firefight deals with the aftermath of Steelheart's epic conclusion. Instead of making David's and the other Reckoners' lives simpler, their actions at the end of Steelheart just made things even more complicated, and they end up having to go to Manhattan (now "Babylon Restored") for answers.
